ACKNOWLEDGEMENT

With great pleasure and pride I express my deep sense of gratitude to Dr. R.K. Mahajan, Associate Professor, Department of Chemistry, Himachal Pradesh University, Shimla, (India), for his inspiring guidance, constant encouragement and fruitful discussions. His good nature, patience and genuine affection provided me with a most congenial atmosphere in which it was a pleasure to work.

I offer my thanks to Professor K.C. Malhotra, Vice-Chancellor, Himachal Pradesh University, Shimla and Professor B.C. Verma, Chairman, Department of Chemistry, Himachal Pradesh University, Shimla, for providing with all the necessary laboratory and library facilities.

I am grateful to the Chairman, Department of Chemistry, Punjab University, Chandigarh and Chairman RSIC of Punjab University, Chandigarh, for providing all the necessary facilities for IR and NMR spectral studies. I am also thankful to Dr. Y.P. Gupta and Dr. Paramjit Singh, Department of Chemistry, Punjab University, Chandigarh, for their help in recording IR and NMR spectra. For recording of mass spectra, I am grateful to Prof. Dr. H. Malissia, G. Reuter, Analytical Laboratories, Post Box 1249, Ergelskirchen, W. Germany.

I am grateful to Dr. B.J. Heywood and Dr. D.C. Twinn of
May and Bakers, Agrochemicals, Essex, England, for testing the compounds for their JH/Herbicidal activities. I am also grateful to Prof. R.K. Malhotra, Department of Bio-Sciences, H.P. University, Shimla, for biological testing of some compounds.

I also wish to express my sincere thanks to Dr. (Mrs) Neelam Gupta, Raman, Yogender and Bharti for their timely and valuable co-operation and helpful discussions.

I pay my sincere and heartiest thanks to my parents and in-laws, who spared no efforts in making my studies a success.

Financial assistance in the form of JRF by CSIR, New Delhi is gratefully acknowledged.

Last but not least no formal thanks are enough to appreciate the keen interest of Sh. Vinod K. Sharma in very efficient typing of this work.

Dated: 11th Oct. 1989
