ACKNOWLEDGEMENT

It is a great pleasure for me to submit my Ph.D. Thesis on “Petrography and Geochemical study of Central Ganga Plain sediments, Aligarh –Mathura region, Uttar Pradesh, India” for the Degree of Doctor of Philosophy in Geology, Aligarh Muslim University.

I feel privileged in expressing profound sense of gratitude and indebtedness to supervisor Dr. A.H.M. Ahmad, Associate Professor, Department of Geology, Aligarh Muslim University, Aligarh for his scrupulous and keen witted guidance, encouragement and constant supervision.

I am indeed grateful to Dr. Shadab Khurshid, Chairman and Prof. Mahshar Raza, Ex-Chairman, Department of Geology, Aligarh Muslim University, Aligarh, for extending the necessary research facilities.

A special debt of gratitude is graciously extended to Dr. M. Shamim Khan, Assistant Professor, Department of Geology, Aligarh Muslim University, Aligarh, for spanning his precious time and for many valuable suggestions, which indeed helped in the improvement of thesis work.

Thanks are also due to my seniors Dr. Ahmad Faraz Khan, Dr. Chayanika Saikia, Dr. Aabiroo Majid, Mr. Sajad Ahmad Wani for their constant support and valuable suggestions during the course of this research work.
I owe special thanks to my colleague, Miss Ruchi Agrawal, Mr. Tauheed Khan, Miss Roohi Irshad and Mr. Asif Iqbal for encouragement and cooperation.

My Umpteen and extreme thanks are due to my husband, Mr. Amit Raghuvanshi for his care, help and support. Thanks are also due to everyone, who made my journey in A.M.U. really memorable.

This work exclusively funded by Counsil of Science and Technology (CST), U.P. through a major research project No. CST/AAS/D-2817, dated 29-01-08, wherein I worked as a research Assistant for entire duration of project.

Last but not least, I would like to express my heartfelt gratitude to my parents and my sister for their invaluable encouragement and moral support during the completion of the work.

Tanu Verma
