Acknowledgment
I express my sincere thanks to Dr. A. J. A. Ranjit Singh, Head, Department of Advanced Zoology and Biotechnology, Sri Paramakalyani College, Alwarkurichi, Tamil Nadu without whom achieving this commendable work would not have been possible. His exciting guidance, constant encouragement and untiring efforts for perfection are the major stimulating factors for me. Above all, he understands difficulties of his scholars with humane touch and he cares like a mother in giving solutions to their problems. My sincere and hearty thanks to him.

I am sure that the soul of my Professor, late Dr. R. Palaniappan will be wishing me "Good Luck". Though he is not here with us now, I still have his mobile number in my hand phone un-erased. I deeply feel that he was with me throughout my work. My sincere prayers for his soul.

I am also much grateful to my co-guide Dr. A. G. Murugesan, Professor, Sri Paramakalyani Centre for Environmental Sciences, Alwarkurichi, Manonmanium Sundarnar University, Tamil Nadu for his support, encouragement and meticulous suggestions during the entire tenure of my work. His willingness to help me in difficult times cannot be forgotten and he allowed me to use the laboratory whenever needed.

My friend, Dr. S. Gokulshankar, Research Scientist, R & D Center, Cholayil Private Limited, Chennai, who is one of the key persons who had inspired me by his attitude and knowledge. He gave me tremendous support throughout my work by different means as a friend, as a guide and as a teacher and even scolded me at some points
whenever it was necessary. Though words cannot express enough, I owe this opportunity to say thanks to him.

I thank the Principal and management of Sri Paramakalyani College, Alwarkurichi, Tamil Nadu and The New College, Chennai.

I sincerely thank Dr.C.Janaki, Professor and Head, Department of Dermatology, Madras Medical College, Chennai, who helped me in sample collection and taught me many things in the field of Medical Mycology.

I sincerely acknowledge the help of Dr. Pushpa Viswanathan, Professor and Head, Department of Electron Microscopy, Cancer Institute, Chennai, who gave me immense support in taking Electron Micrographs.

I sincerely thank Mr.S.Selvaraj, Director, Helini Biomolecules, for his support and allowing me to use his facility and instruments for the Electrophoresis analysis. Also, I place on record my thanks to Mr.Chandrasekar for his support.

I acknowledge my thanks to the Curator, Microbial Type Culture Collection & Gene Bank (MTCC), Institute of Microbial Technology for providing me reference cultures for my study.

My Father-in-law Mr.N.Kesavachandran is another silent man behind my successful completion of this work, I am thankful for his tireless help in many ways.
My sincere thanks to Mr.S.Kumar, Mr.S.Viswanathan, Mr.R.Ragunathan Directors, Labmate (Asia) Pvt. Ltd. and Mr.V.M.Bibikar, Director, Labindia Pvt. Ltd. for their encouragement and support.

I owe a lot to my wife, Subha for her understanding and support with day to day adjustments during my course of work, without which this mission would have been too difficult to accomplish. My little hearts, Vichu and Vishnu have always been my source of energy to overcome the strenuous work schedules.

Of course, there is no word to express my thanks to my parents. But I consider this as one more place, where I can say thanks to them for their moral support and giving me everything in the life which has brought me till here.

Thanks to God, the almighty for giving me strength and bestowing lots of good people around me as guides, friends, parents, wife and children.
