Acknowledgement

I take this opportunity to express my profound gratitude and deep regards to my guide Dr Kartik B. Vyas (Associate professor, Sheth L.H Science College, Mansa) & Dr Kiran S. Nimavat (Associate professor Govt. Science College Gandhinagar) for his exemplary guidance, monitoring and constant encouragement throughout the course of this thesis. The blessing, help and guidance given by them time to time shall carry me a long way in the journey of life on which I am about to embark.

It would not have been possible to do my doctoral study without the help and support of the kind people around me, to only some of whom it is possible to give particular mention here. Firstly, my big thanks go to all my friends, colleagues, relatives and guide. Special thanks to Mr Nilay Bhatt & Dr Darshan Pandya, without all of them I can’t pass the journey from topic selection to thesis submission.

I am extremely grateful to my Mom & Dad for their love, prayers, caring and sacrifices for educating and preparing me for my future. I am very much thankful to all my family members, my wife Saloni and my lovely son Pruthvik for their love, understanding, prayers and continuing support to complete this research work.

Finally, I thank all those who have helped me directly or indirectly in the successful completion of my thesis. Anyone missed in this acknowledgement are also thanked.

Thank you

Tejas Vyas
