"Life’s battles don’t always go
To the stronger or faster man,

But sooner or later the man who wins
Is the man who thinks he can”

When any piece of work is satisfactory accomplished it is never the work of one person but a concerted effort of a number of people who silently work behind the scene and often go unheard. It is to those people I feel indebted and without whose help I could not completed this work. Their knowledge and practical experience have graded me to complete this work.

My first thought is to offer my obeisance to GOD almighty without whose silent but omnipresent help, none of this work have been possible.

This is the virtue that I have observed in our esteemed and able teacher my guide Dr. Praveen Kumar Jain, MD Dip. card. DM (Cardiology) Professor & incharge,Cardiology unit, Department of Medicine, M.B.B, Medical College, Jhansi. The profound work has taken shape only because of his wise counsel, firm initiative, timely constructive criticism, sympathetic attitude and invaluable advice. It was the brilliance of his presence that made it possible for me to traverse the
path of success. He guided me at every point with his invaluable suggestions, meticulous attention and perfused my brain with his unlimited knowledge.

"Take time to work, it is the price of success
Take time to think, it is the source of power
Take time to read, it is the foundation of wisdom"

This is what our honourable professor and Head Dr. R.C. Arora, MD, D.Sc. Department of Medicine, MLB Medical College, Jhansi, who is my co-guide has made me inculcate amidst my stay in the Department. His inspiring and considerate nature infuses immense confidence in students, who always acted as a beacon of light to me. He has been a perpetual source of inspiration and knowledge throughout this study. His strong discipline strives to get the best out of every student. His cool and composed self is a source of never ending example and he personifies the rock of gibraltar in the Department.
