ACKNOWLEDGEMENTS

Emotions can not be adequately expressed in words because then emotions are transformed into mere formalities. Nevertheless, formalities have to be completed. My acknowledgements are many more than what I am expressing here.

It gives me an immense pleasure to express my deep sense of gratitude to my revered research Supervisor Dr. P.S. G. Kumar, Librarian, Nagpur University, Nagpur for his able guidance, constant encouragement, constructive criticism, stimulating discussions and keen interest evinced throughout the present study "Analytical study of information needs and use pattern of faculty members and research scholars of Amravati University". I am really fortunate to associate myself with such an able and experienced teacher. The help and advice rendered by him are mainly responsible for the successful completion of the present work.

I am grateful to all the faculty members and research scholars of Amravati University, who could spare their valuable time and answer my questionnaires. Without their help this investigation could not have been materialised.

I also thankful to the staff members of Amravati University library, Nagpur University library & Nagar Wachanalay Mahavidyalaya for their help in collecting information relevant to my present study.

I will be failing in my duty if I do not express my deep sense of gratitude to my father-in-law Shri Punjabrao Mankar, Sumantrao Gudadhe, mother-in-law Vimalbai Mankar, parents Shri Ganeshrao Choukhande, Sau Nirmala Choukhande, brothers Mohan, Sohan and my beloved kids Vaidehi and Shahu for their kind co-operation, affectionate encouragement and moral support which made this work possible.

Mere words can not express my whole hearted sense of reverence to my elder brother Dr. Shrikant Aherkar for providing me guidelines throughout the study; brother-in-law Shri Shrikant Taral and Sau Savita Taral for evincing constant encouragement.
It seems, one uses the choicest words to measure the boundless love and fireless sacrifice of some one I find no such measure adequate to quantify all that my husband Shri Prafulla S. Gudadhe have done for me. I would like to pour out my heart for him who have been a source of encouragement throughout my educational carrier. I also wish to record sincere gratitude towards him in shaping the raw data into valuable information by applying statistical tests and sincere thanks to Shri Pravin Bhoyar for helping me to develop the programme for data processing.

Lastly, I am thankful to all those who have extended their direct or indirect assistance in completing this dissertation work.
