ACKNOWLEDGEMENTS

I have great pleasure to place on record my profound gratitude to my esteemed supervising teacher Dr. K. P. Somanathan Nair, Head of the Department of Library and Information Science, Mahatma Gandhi University for his valuable guidance and constant encouragements invariably extended to me during the course of my research work and for the meticulous manner in which he imparted his knowledge for the preparation of this report. I am deeply indebted to him for his personal attention, valuable suggestions and constructive criticisms without which it would not have been possible for me to pursue and fulfill this endeavor. Words would not suffice to express my deep gratitude and indebtedness to Dr. K. P. S. Nair, my research guide who ignited in me the spirit of incessant searching to the new horizons of knowledge and information. He was a true guide who led me to the right path for the fulfillment of the task. His vision, inspiration and determination alone is enough for me to express my sincere gratitude and indebtedness to him and also to his family in helping me to accomplish my humble mission.

I express my sincere gratitude to Dr. G. M. Ajith, Director, DOEACC Centre Calicut (an autonomous society of Department of Information Technology, Ministry of Communications & Information Technology, Government of India) for his goodwill in granting permission to pursue my research work with all his blessings and encouragement.
