ACKNOWLEDGEMENT

First and foremost, I would like to express my sincere gratitude and thanks to my supervisor Dr. P. Somasundaram, Professor and Head, Department of Mechanical Engineering, EBET Group of Institutions, Nathakadaiyur who provided invaluable guidance and suggestions during the entire research study. I have no doubts that finishing my thesis in a proper and timely manner was impossible without his suggestions and advices. I am extremely fortunate to work under him.

I wish to place my hearty thanks to the Management of Kongu Engineering College for granting permission to carry out the research work. I would like to thank the Principal, Dean, Head of the Department, teaching faculty and non teaching members of Mechanical Engineering Department for their support in completing my research work.

I owe my sincere thanks to the members of the Doctoral Committee, Dr. Y. Robinson and Dr. V. Sivakumar whose suggestions throughout this research exertion has been the most valuable in moulding this thesis.

I would like place on record my sincere thanks to Dr. N.R.Alamelu, Principal, Mr. V.Satheesh Kumar and Mr. Abdullah for their continuous help during my research work.

I am deeply indebted to the Almighty, my beloved parents, wife and family members for their untirely back-up and prayers throughout my educational career. I also thank my good friends, beloved colleagues and students who stood by me in my hard and good times of this doctoral programme.
