ACKNOWLEDGEMENT

Thanks to Lord Shiva as I feel his generosity that He and only He extended to me.
I would like to express my deepest sense of incessant fathomless respect and humble
gratefulness to my supervisor, Prof. R.N.P. Choudhary for providing this great learning
opportunity and unwavering faith and encouragement during my research work. Without
his constant support, constructive guidance and indispensable suggestions; I would not
have completed this work. His professional knowledge, research passion and great
wisdom have inspired me throughout the course of my research. His patience, close
monitoring and encouragement on my paper writing have been of great importance for my
growth as a scientific researcher. The experience and advice he shared with me have
become invaluable resources for my life.
I avail myself of this proud privilege to express my regard to my co-supervisor Prof.
Piyush R. Das for his intellectual touch in every stage of my study, which expanded my
vision and to learn the subject in detail.
My sincere obligation goes to Mrs. D. K. Choudhary (Auntyji) for her motherly love,
affection, blessings, encouragement and hospitality that played an important role to
complete the work in time and never let me feel that I am away from home.
My special note of appreciation is for Prof. B. Behera (Sambalpur University) for his
constant encouragement for this level.
I would also like to give my sincere appreciation to Prof. P.K. Mohapatra, Prof. Rajeev
Padhee and Dr. B. N. Parida for their co-operation in my research work. My sincere
gratitude also goes to my DAC members, Prof. P. C. Dash, (HOD, Physics), Prof. V.
Ramarao M, Prof. B. D. Sahoo (Deptartment of ECE) and Prof. J. Nanda (Ph.D Co-
ordinator) for their support and encouragement. I would like to mention the deep
reverence for all the faculty members and technical staffs of the Department of Physics of
S‘O‘A University for their kind help.
I am extremely thankful to the management of S‘O‘A University for providing required
experimental facilities of Advanced and Multifunctional Materials Research Laboratory of
the University.
I would also like to convey my thanks to academic and technical staff of CRF, IIT Kharagpur, Dr. H.B.K. Sharma, Manipur University, Dr. M.N. Goswami, Midnapore College, WB and Dr. Ashok Kumar, NPL New Delhi for their kind help in carrying out some of the experimental work.

In particular, I would like to thank my research friends; Mrs. A. Mekap, Mr. N. Roy, Mr. S. Pannigrahi, Mrs. T. Acharya, Ms. S.S. Sahoo, Ms. K. Parida for their friendly co-operations. I would also like thank Dr. J. Rout, Dr. S. Pattanayak, Dr. S. Dash, Dr. B. Pati, Dr. B.C. Sutar, Dr. S. Mohanty and all the previous members in our research group for help in experiments and sharing of their research experience.

Finally, I am especially grateful to my loving parents Mrs. Gouri Behera and Mr. Palau Behera who have nurtured and supported me all over my life. Without their sacrifice, blessings, inspirations and support, it would not have been possible to complete this work.

The incredible support of my brother, sisters and Er. P.P. Nanda is gratefully acknowledged. Without their love, support and sacrifice, completion of my thesis was impossible.

Finally, I express my sincere thank to DRDO (ministry of Defense), Govt. of India for providing me financial assistance and fellowship as JRF and SRF, to complete the research work for Ph. D degree.
