Highlights, Societal relevance, Limitations and Future directions
Highlights of the study
2. It is an indigenous and safer treatment for inflammatory conditions.
3. Survey indicated cervicitis as a common clinical condition in selected area.
4. The study has set a model to find out a safer and better alternative treatment for inflammatory disorders.

Societal relevance of the study
1. Economically viable anti-inflammatory formulation for the management of cervicitis.
2. Study indicated that, cervicitis is a common but neglected disorder which affects the health of women in the survey area.
3. The survey has initiated awareness about disorders in relation to prevention and cure.

Limitations of the study
1. Newly developed formulation (DF2112) was not investigated for its clinical efficacy.
2. Survey was limited to one block of Pune district.

Future directions
1. After additional toxicity studies, DF2112 can be taken further for its clinical validation.
2. Most of the plant parts used are roots, therefore the efficacy of alternative plant parts needs to be assessed.

Awards
Awards

1. Best oral presentation award in National conference on Biotechnology for all (NCBFA) held at Jalgaon on 29th and 30th December 2010.

2. Best Young Researcher Award by GRABS Educational Charitable Trust at Chennai on 1st November 2015.
Presentations
International conferences

1. Presented a poster entitled “Comparative immunomodulatory potential of *Tinospora cordifolia*, *Tinospora sinensis* and *Neem Guduchi*” in Three days International Conference On “Current Trends In Medicinal Plants Research”, organised by Department of Botany, University of Pune on 10th to 12th January 2012 at University of Pune, Pune.

2. Participated in International Conference on “Business Opportunities in Life Sciences” at Modern College on Arts, Science and Commerce, Pune, on 28th to 30th January 2012 at Pune.

National conferences

1. Presented a paper entitled “Validation of the potential of Dashamoola for its anti-inflammatory and antioxidant activity” in National conference on Biotechnology for all (NCBFA), organized by North Maharashtra University, Jalgaon, from 29th to 30th December, 2010 at Jalgaon.

2. Participated in the Three days National Seminar on “Plant Biodiversity for Sustainable Development” organised by Department of Botany, University of Pune from 10th to 12th March, 2011 at Pune.

6. Participated in the “One Day Entrepreneurship Awareness Camp”, organized by Rajiv Gandhi Institute of IT and Biotechnology, Bharati Vidyapeeth, Pune, Maharashtra, India on 8th January 2015 at Pune.
