Prof. L. Janmejay Singh,  
M. Sc. Ph. D., (G. U.), F. B. S., Head Plant Physiology

To

The Registrar  
Manipur University  
Imphal-795 003.

Dear Sir,

I have a great pleasure in forwarding the thesis entitled "Meiotic prophase analysis by surface spreading of synaptonemal complexes" submitted by Mr. Thounaojam Bhagirath Singh for the degree of Doctor of Philosophy in Life Sciences of this University.

I certify that:

The candidate was registered as a research student in the Life Sciences Department, Manipur University under my supervision.

The candidate has fulfilled all the requirements as laid out in the Ph.D. ordinances of this University before submission of the thesis.

The experimental work was carried out by the candidate during his stay in this University as a research student.

The results included in this thesis have been checked and have not been submitted for any degree or distinction elsewhere.

Yours sincerely,

[L. Janmejay Singh]
ACKNOWLEDGEMENTS

I am indebted to Professor L. Janmejay Singh for supervising the present study and for his generous efforts to meet all the requirements of this work. I would like to express my gratitude to Dr. S. C. Kundu who greatly influenced this work through inspiring scientific and practical guidance. I am also grateful to him for providing me with his personal reprint collections, for helpful discussion of the manuscript, and for his constant encouragement during the course of the present study. Assistance of N. Ibombi Singh during the latter part of this investigation and in preparation of this thesis is gratefully acknowledged. I warmly thank O. Keinatombi Devi for typing the major portion of this thesis. I am also grateful to her for her devoted help in various forms at all steps of the preparation of this thesis. I extend my thank for typing the thesis to I. Subash Singh also who, besides typing, skillfully programmed the tabulations. I thank S. Giri Singh for help during the preparation of this thesis. Regional Tasar Research Station, Imphal and various Sericulture Farms of Manipur provided the Lepidopterans for this study. I am deeply grateful to all of them. This work was supported by University Grants Commission, New Delhi (Grant No. F.S. 54/79/RF).
