Acknowledgements

This research work has been made possible by the contributions of many people in various capacities. Without remembering them, this work would be incomplete. I would therefore like to acknowledge each of their contributions here by thanking them wholeheartedly.

I take this opportunity to acknowledge my heartfelt gratitude to all those people who directly or indirectly helped me to carry out this research work successfully. I would like to thank Bangalore University and University Visvesvaraya College of Engineering (U.V.C.E) for allowing me to carry out doctoral research in the Department of studies in Electronics and Communication Engineering.

This thesis would not have been possible without the help, support and patience of my Principal Supervisor, Dr K S Gurumurthy, Professor(retd), Department of Electronics and Communication Engineering, not to mention his advice and unsurpassed knowledge of the subject domain. I thank him for his patience and steadfast encouragement to complete this PhD work.

I thank Dr G Narendra Kumar, Chairman, and Department of studies in Electronics and Communication Engineering, University Visvesvaraya College of Engineering for his encouragement and support to carry out this research work.

My special thanks to the Management and the Principal of Dr.A.I.T who has given constant support to me throughout my research work.

The good advice & support of Dr. Chandrakanth Gowda, Principal Sambhram Institute of Engineering Bangalore, has been invaluable both on academic and personal level, for which I am extremely grateful. His encouragement, guidance and support from the initial to the final level enabled me to develop an understanding of the subject and to complete my research work.

I would like to express my heartfelt gratitude to Dr. Bheemaraju and Dr. Veenadevi, Professors in the Department of Chemistry, Dr.A.I.T Bangalore, whose esteemed moral support has helped me and I would like to express my gratitude to Prof. Ravish, Department of Medical Electronics, Dr.A.I.T for his moral support.
I would like to acknowledge the academic and technical support given by the H.O.D, Dr. G.V. Jayaramaiah, teaching and non-teaching staff of the Dept of E&C, Dr.A.I.T Bangalore. The library facilities and computer facilities of the College have been indispensable.

I would like to thank Dr Rajeswari M.Hegde, Associate Professor in the Dept of TCE, B.M.S college of Engineering, Bangalore who has helped me by giving moral support and drafting of the thesis.

I wish to express my heartfelt thanks to all my friends and family members who stood by me throughout the period of my research work.

I would like to express my respect and immense gratitude to Almighty Baba who blessed me and helped me to complete this entire research work with highly stable and determined state of mind.

Lastly I also thank Dr. T R Shashipriya, Asst. Prof. in English, Dr. AIT, who has helped me in the language correction of my thesis. Last but not the least; I would thank all my well wishers for their direct or indirect support offered throughout this Ph.D. work.
