ACKNOWLEDGEMENT

I would, first of all, like to thank the God Almighty for providing ample opportunities to learn from the ocean of knowledge and wisdom available in this world during my life. I am deeply indebted to Dr.(Capt.) C.M. Chitale, who encouraged me to undertake research in management and climb higher plateaus of academic excellence. But for his constant guidance, encouragement, support and follow-up, I would not have been able to complete this research. His enthusiastic unstinting support, despite his very busy schedule, was a source of inspiration for me.

I would, on this occasion, remember my father and mother who motivated their children for achieving high levels of academic excellence. The support and encouragement received from them created the appropriate environment for academic pursuits and kindled the spirits of academic adventure all the time. I am grateful to my wife Betsy, whose relentless pursuit of my goal of completing the research enabled my performance. Without her assistance, support and encouragement this research would not have seen the light of the day. I also thank my sweet little kids, Rahul and Rhea, who provided the lovely and lively environment in which I progressed in the research work till completion.

I would like to place on record my heartfelt gratitude to the customers of banks in various cities who had shown special interest in responding to my survey. I also thank
my friends, colleagues, students and some organisations for helping in conducting the survey at various locations. I have no words to describe my appreciation of the co-operation extended to me by the senior executives of the banks selected for the study and also the other executives who uninhibitedly stepped forward to respond to the survey.

I will be failing in my endeavor if I do not thank Reserve Bank of India (employer), an institution with many scholars. The bank has always encouraged academic pursuits by its employees and has framed schemes of scholarships and assistance. I also thank Smt. Vani J. Sharma, Regional Director, Reserve Bank of India, Ahmedabad for encouraging me and providing a break from my professional assignments enabling completion of the research work on time.

(S.Rajagopal)
