ACKNOWLEDGEMENTS

I take this opportunity to express my deep sense of gratitude to my guide Dr. M.M. Kibe, B.Sc., M.Ag., Ph.D., erstwhile Agricultural Chemist, Government of Maharashtra, Poona, for suggesting the problem, encouraging me often and on, and continuously helping me with valuable guidance during the course of the investigation and in the preparation of this thesis.

I thank Dr. T.L. Deshpande, B.Sc.(Agri.), Assoc. I.A.R.I., Ph.D.(Addl.), Agricultural Chemist, Government of Maharashtra State, Poona, and Professor G.K. Zende, B.Sc., B.Ag., M.Ag.Sc. (Melbourne), Associate Professor of Soil Science, Department of Chemistry, College of Agriculture, Poona, for going through the manuscript and making valuable suggestions.

I also thank Dr. V.R. Kale, M.Sc.(Agri.), Ph.D.(I.A.R.I.), Assistant Professor of Plant Physiology, College of Agriculture, Poona, for providing the greenhouse facilities; Mr. A.S. Jadhav, Plant Introduction Officer, Department of Botany, College of Agriculture, Poona, and Mr. G.A. Katwe, Assoc. I.A.R.I., Ph.D. student, Department of Botany, College of Agriculture, Poona, for their help in taking photographs of the plates; and Mr. C.C. Shaligram, M.Sc., Deputy Statistician, Agricultural Department, Maharashtra State, Poona, for his help in statistical treatment of the data.

My thanks are due to my friend Mr. P.R. Bhosale and other members of the Micronutrient Division, Department of Chemistry, College of Agriculture, Poona, for their cooperation.

My thanks are also due to Mr. G.T. Chavan for typing the thesis.
Finally, I should like to gratefully acknowledge my indebtedness to the University Grants Commission, New Delhi, and thank them for awarding me a Junior Research Scholarship during the period of the investigation, but for which it would not have been possible for me to undertake the work.

A.R. Mohapatra
