ACKNOWLEDGEMENTS

The successful completion of the present thesis was made possible by many persons and institutions. I would like to thank them for the active support and encouragement which they extend to me during the course of the work.

First of all I would like to express my deep acknowledgement to my guide Dr. Sukla Bhaduri, Professor, Department of Geography, University of Calcutta for her endless support and valuable guidance at every stage of the work in completing this thesis. I am also grateful to her for her constant effort in compiling and providing me with every sort of help for completion of this thesis.

I am grateful to the faculty and staff at the Department of Geography, University of Calcutta, for their support and encouragement. Dr. Ranjan Basu, Professor, Department of Geography, University of Calcutta has provided valuable advice and motivated me to meet challenges during my primary survey. He has also been kind enough to extend support whenever I have approached for help.

I would like to express my sincere gratitude to Dr. Avijit Kumar Nandi, Professor, Agricultural–Economics, Bidhan Chandra Krishi Viswavidyalaya (BCKV), Mohanpur for his coordination and for providing me with the relevant data.

I also like to extend my thanks to Sri Atin Kr. Modak, Asst. Director of Agriculture, (Sugarcane) Plassey and to Sri Swapan Kr. Sarkar, Principal Agricultural Officer (PAO), Krishnanagar, Nadia for their tireless assistance throughout the time of my work.

I am thankful to Md. Ataur Rahaman, former Secretary, Bilkumari High School (H.S), Nakashipara for giving me the permission to carry out the work.

I thank Sri Supomo Kumar Roychowdhury, District Planning Officer, Nadia for his valuable help and advice. Sri Sudip Kumar Vakat, District Horticulture Officer, Zilla
Parishad, Nadia has been helpful in instructing me regarding the status and prospect of horticultural products and nature of different agricultural markets in Nadia District.

Sri Tapan Kumar Biswas, Department of Rural Development, Office of the District Collectorate, Krishnanagar, Nadia has provided valuable information regarding the land distribution system and rural livelihood throughout different blocks of the district.

I would take this opportunity to thank the staff of the District Statistical Office, Krishnanagar, Nadia for providing me various secondary data for the dissertation.

I am obliged to Sri Alok Sanyal, District Information and Cultural Officer, Krishnanagar, Nadia for providing me different important literature about Nadia District. I express my deep sense of gratitude to Sri Suman Pal, Asst. Professor, Department of Geography, Krishnanagar Government College, University of Kalyani; Sri Samrat Hore and Smt. Tuli Ghosh, research scholar, Department of Statistics, University of Calcutta, for teaching me the details about different software and statistical methods used in the thesis.

Dr. Chinmoy Biswas, Block Veterinary Officer, Tehatta-I, and Mr. Pinaky Barui has always provided me with valuable inputs during many discussions on the subject and has been of immense help with respect to design the thesis.

In the course of the discussions on financial assistance and role of cooperatives, Sri Sukumar Mondal, Chief Development and Field Executive Officer, Nadia District Central Cooperative Bank Ltd., Krishnanagar, has been of great help.

Sri Pradip Kumar Mukherjee, Manager, District Head Office, United Bank of India, Krishnanagar, Nadia has provided me important data and guidelines regarding the various schemes for bank loan and level of banking efficiency in case of agriculture and agro-based food processing industry.
Sri Chanchal Mitra, District Development Manager, NABARD, Nadia District has been kind enough to provide me important data about the activities and role of NABARD throughout the district.

I would like to thank Sri Pradip Biswas, Asst. Agricultural Officer, Krishnagar and Sri Byasdeb Chattopadhyay, Chief Horticulturist, Nadia for their valuable advice and assistance for supplying me with the valuable data from different offices all over the district. I am also grateful to Dr. Indrani Banerjee (Pathak), and Sri Saikat Dutta, General Manager, District Industrial Centre, Krishnanagar, Nadia for providing me various essential books and data for my research work.

My sincere thanks goes to all the villagers and cultivators from all the sample villages throughout the different blocks of Nadia district for their kind support and patience as well as for providing me with valuable information during my primary survey.

I would take this opportunity to thank the staff and employee and authority of various library namely State Institute of Panchayat and Rural Development (SIPRD) library, Kalyani, Nadia; Central library of BCKV, Mohanpur, Nadia; Departmental library of Agriculture and Geography, Ballygunge Science College, University of Calcutta for allowing me to use their potential resources for this research work. I am also very thankful to the staff at Writers’ Building Secretariat Library and the Library of Bureau of Applied Economics and Statistics, in New Secretariat Building.

And last but not the least I would like to thank Sri Bikash Karmakar of Superfast Digi Lab, Ranaghat, for proving his excellent skill of representation, especially with respect to mapping and drawing of diagrams, and also, I thank my wife Smt Jyotiprava Roy for her endless support without which I could’nt have the price of completing the thesis.
