ACKNOWLEDGEMENTS

I take this privilege to express my gratitude to those persons without whose support and assistance, it would have been impossible for me to complete my research work effectively.

First of all I express my deepest gratitude and thanks to my respected teacher and research guide, Late Prof. A.K. Chandra, Dept. of Botany, Calcutta University. His noble guidance, valuable criticism and constant encouragement helped me throughout my research activity. It is a matter of great regret to me that in spite of completing all the formalities for the submission of this thesis, he could not see the thesis in its complete form, as he passed away on 7th November, 1993.

With a sense of gratefulness, I thank Prof. R.N. Basu, the Vice-Chancellor, Calcutta University for his valuable guidance during my moments of grief and helplessness following the death of my guide.

I express my deep gratitude to Prof. A.B. Banerjee, the Dean of Faculty of Science, Calcutta University and Dr. S.K. Gupta, Reader in Chemistry, Raja Peary Mohan College, Uttapara, Howrah for their guidance and co-operation to complete my research work and by making a meticulous scrutiny of the thesis following the sad demise of my research guide. I am grateful to Dr. S.K. Gupta also for making the necessary interpretations of the spectral data of the isolated antimicrobial compounds.

I am grateful to Prof. A.K. Sharma, Prof. S. Ghosh, Head of the Dept. of Botany, Calcutta University, Prof. S. Mukherji, the Convener of the Ph.D. Committee in Botany, Prof. R.P. Purkayastha, Prof. N. Samajpati, Prof. R.K. Choudhury, Prof. P.K. Sirkar, Dr. A.K. Paul, Dr. N. Paria, Dr. (Mrs.) Bratati De and all other teachers of the Dept. of Botany for their co-operation and encouragement.
My special thanks are due to Sri Bhaskar Sanyal for his enormous co-operation in completing this thesis. Thanks are due to Sri Parimal Ray, Dr. Swapan Bhattacharya, Dr. S.B. Ghosh, Dr. S.N. Bhattacharya, Miss Malabika Ray, Miss Sabari Ray Tapadar, Sri Rana Datta, Miss Rosam Deb, Miss Malini Basu and Sri Anupam Manna, scholars of Microbiology Laboratory. I also thank Sri Kalyan Banerjee for his help in the laboratory.

I am grateful to Dr. D. Chatterjee, Principal, D.B.College, Howrah for his constant encouragement and co-operation in completing the research work.

I am grateful to Sm. Manika Saha for her help to obtain the spectra of the isolated compounds from the Laboratory of Indian Association for the Cultivation of Science, Jadavpur, Calcutta.

I also express my deep regards and gratitude to my parents, my wife, my daughter and all other members of my family for their love, encouragement, forebearance and co-operation, which helped me to concentrate aptly in preparing this thesis.

Lastly I express my thanks to Sri P.K.Gantait for typing the thesis in a very short time.
