LIST OF GRAPHS

Graph I: Mean of the scores obtained by the adolescents studying under the three boards (ICSE, CBSE and WBBSE) ..................................................... 134

Graph II: Mean of the scores obtained by the adolescent girls and boys on the selected variables ................................................................. 138

Graph 1: Mean of the scores obtained by the adolescents studying under the three boards (ICSE, CBSE and WBBSE) ..................................................... 172

Graph 2: Mean of the scores obtained by the adolescent girls and boys ............... 173

Graph 3: Mean of the total emotional intelligence scores obtained by the adolescent girls and boys of each of the three boards (ICSE, CBSE and WBBSE) .................................................................................. 177

Graph 4: Mean of the depression scores obtained by the adolescents studying under the three boards (ICSE, CBSE and WBBSE) .................................................. 178

Graph 5: Mean of the depression scores obtained by the adolescent girls and boys ........................................................................................................... 182

Graph 6: Mean of the anxiety scores obtained by the adolescents studying under the three boards (ICSE, CBSE and WBBSE) .................................................. 192

Graph 7: Mean of the anxiety scores obtained by the adolescent girls and boys ........................................................................................................... 195

Graph 8: Mean of the anxiety scores obtained by the adolescent girls and boys of each of the three boards (ICSE, CBSE and WBBSE) ................. 197.

Graph 9: Mean of the anger scores obtained by the adolescents studying under the three boards (ICSE, CBSE and WBBSE) ............................................ 198
Graph 10: Mean of the anger scores obtained by the adolescent girls and boys..........................201

Graph 11: Mean of the anger scores obtained by the adolescent girls and boys of each of the three boards (ICSE, CBSE and WBBSE)...................... 206

Graph 12: Mean of the self concept scores obtained by the adolescents studying under the three boards (ICSE, CBSE and WBBSE). ..................207

Graph 13: Mean of the self concept scores obtained by the adolescent girls and boys.................................................................209

Graph 14: Mean of the disruptive behaviour scores obtained by the adolescents studying under the three boards (ICSE, CBSE and WBBSE). ..........213

Graph 15: Mean of the disruptive behaviour scores obtained by the adolescent girls and boys.................................................................218

Graph 16: Mean of the home, health, social and emotional adjustment scores obtained by the adolescents studying under the three boards (ICSE, CBSE and WBBSE). ..................................................223

Graph 17: Mean of the home, health, social and emotional adjustment scores obtained by the adolescent girls and boys...............................226

Graph 18: Mean of the home, health, social and emotional adjustment scores obtained by the adolescent girls and boys of each of the three boards (ICSE, CBSE and WBBSE). ..................................................228

Graph 19: Mean of the study habits scores obtained by the adolescents studying under the three boards (ICSE, CBSE and WBBSE). ......................231

Graph 20: Mean of the study habits scores obtained by the adolescent girls and boys.................................................................232
Pie Charts 1: The different levels of depression of the students under the three Boards..............................179

Pie Charts 2: The different levels of depression in adolescent girls and boys........184

Pie Charts 3: The different levels of anxiety in the students under the three Boards.................................................193

Pie Charts 4: The different levels of anxiety in adolescent girls and boys........196

Pie Charts 5: The different levels of anger of the students under the three Boards..................................................199

Pie Charts 6: The different levels of anger in adolescent girls and boys........203

Pie Charts 7: The different levels of self concept of the students under the three Boards...........................................209

Pie Charts 8: The different levels of self concept of the adolescent girls and boys..............................................210

Pie Charts 9: The different levels of disruptive behaviour in the students under the three Boards.................................214

Pie Charts 10: The different levels of disruptive behaviour in adolescent girls and boys..................................................219
