

CONTENTS

Chapter	Pages
1. INTRODUCTION	1
1.1. The Issues Involved	1
1.2. Theme of the study	2
1.3. Statement of the problem	3
1.4. Research objectives	3
1.5. Hypotheses	3
1.6. Research Methodology	4
1.7. Scheme of Work	6
2. SURVEY OF LITERATURE	8
3. POWER SCENARIO IN INDIA	17
3.1. Introduction	17
3.2 Constitutional Status and legal framework	18
3.3 Institutional and Organisational Structure	21
3.4 Investment and Gradual Development in Power Sector	26
3.5 Sector wise Demand Growth	36
3.6 Regional Scenario	40
3.7 West Bengal Scenario	48
3.8 Conclusion	51
4. DEMAND OF ELECTRICITY AND SUPPLY DEMAND GAP	52
4.1. Introduction	52
4.2. Power demand at Global and National Level	53
4.3. Study of demand variation and reasons behind	57

4.3.1. Hourly variation of total WBSEB power demand in different seasons	58
4.3.2. Hourly variation of power demand in different sectors in different seasons	64
4.3.2.1. Domestic demand pattern	66
4.3.2.2. Demand Pattern of Suburban Railway Section	83
4.3.2.3. Industrial Load Pattern	85
4.3.2.4. Agricultural Load Pattern	89
4.3.3. Variation in Monthly Energy Demand of WBSEB as a Consequence of Seasonal Variation	90
4.4. Management of Peak Demand Problem	99
4.5. Demand Side Management	104
4.5.1. Differential Tariff System for Industrial Consumers to Implement Demand Side Management	107
4.6. A Projection of DSM in a hypothetical Sub-system of West Bengal	110
4.7. Conclusion	117
5. INSTALLED CAPACITY AND CAPACITY UTILIZATION	118
5.1. Introduction	118
5.2.1. Growth of Installed Capacity	119
5.2.2. Gradual Increase of Installed Capacity through Different Five Year Plans	121
5.2.3. Installed Capacity at the End of 9 th Plan and its Composition	124
5.2.4. Gradual Investment for Capacity Addition and Trend of Per Mega Watt Cost of Investment	125
5.2.5. Capacity Addition during 10 th Plan	126
5.3.1. Present Installed Capacity and its Composition	128
5.3.2. Installed Capacity in West Bengal	130
5.4. Demand - Supply Position of Electricity	131

5.5. Utilization of Installed Generating Capacity	145
5.6. Reasons of Poor Capacity Utilization	152
5.7. Conclusion	155
6. ANALYSIS OF COST OF ELECTRICITY	157
6.1. Introduction	157
6.2. Elements of Cost	158
6.3. Study of Cost Structure of Different SEBs and Variations Therein	164
6.4. Comparative Cost Analysis of WBSEB with other SEBs	169
6.5. Behaviour of Cost of Different SEBs with respect to Hydro-Thermal Mix	172
6.6. Behaviour of Cost of Different SEBs With Respect To Plant Load Factor (PLF)	176
6.7 Behaviour of Unit Cost of Power With Respect To hydro-Thermal Mix and PLF: A Multivariate Analysis	180
6.8. Behavior of Cost of Electricity Generation in West Bengal	192
6.8.1. Rate of Fuel Consumption With Respect To Capacity Utilization (Case Study in BkTPP Plant)	195
6.8.2 Behavior of Cost With Respect To Demand Fluctuation (Case Study in BTPS Plant)	203
6.8.3. Behavior of Cost with respect to Nature of Plants	209
6.9. Conclusion	214
7. CONCLUDING OBSERVATIONS	216
SELECT BIBLIOGRAPHY AND DATA SOURCE	220
ANNEXURE	229
