ACKNOWLEDGEMENTS

I wish to express my gratitude to the many people who have helped me complete this work. First I like to express my immense gratitude to my Research Supervisor, Dr. M. H. Rudramuni for having opened me the door of opportunity to do research under his guidance. He is the torchbearer of the march of my research. This thesis is a huge success to me because of his guidance.

I am deeply indebted to Indian Government for having opened me the door of opportunity to do research in this country. And also I am extremely grateful to honest people of India for their hospitality and for their immense affection shown to me. That enabled me to feel at home even though I was away from my home.

During this journey, I had the honour of discussing my research topic with stalwarts in the field like Professor K. M. Chandar, Professor Mahadev, Professor R. Rama Chandra, Dr. K.V. Dominic, Dr. Nidhi Tiwari and others. I am thankful to all of them for giving me their time, comments and advice.

Survey of Literature was done in the Libraries of Osmania University Centre for International Studies (OUCIP) and English and Foreign Languages University (EFLU). I thank the Librarians and staff of these Institutions for their help.

I, with all sincerity, record my sense of gratefulness to my parents. Mom and Dad, without you in my life, none of my dreams or goals could have been accomplished. To my
loving sisters and my lovely brothers. Their blessing, invocation, love, affection and dreams placed me in the high seats of learning to broaden my mental horizon and to acquire academic acumen to accomplish the present task.

I thank all of my friends who extended their helping hands to me directly or indirectly. They have been rushing to help me always in all ways. Your patience, understanding and encouragement have meant the world to me. Thank you for always seeing the best in me and for making me aware of that. You will always have a place in my heart!
