# CONTENTS

## CHAPTER – I : INTRODUCTION 1-21

1.0 Introduction  
1.2 Information Technology Skills - A Must for Medical Librarians  
1.3 Need and Importance of the Study  
1.4 Statement of the Problem  
1.5 Definition of the Concepts  
  1.5.1 Information Technology  
  1.5.2 Library Professionals  
  1.5.3 Medical Libraries  
  1.5.4 Skill  
1.6 Objectives of the Study  
1.7 Hypotheses of the Study  
1.8 Scope and Limitations of the Study  
1.9 Methodology and Sources of Data  
  1.9.1 Development of Data Collection Instrument  
    1.9.1.1 Medical Library Association (MLA) Skills Statement  
    1.9.1.2 Special Libraries Association (SLA) Skills Statement  
    1.9.1.3 Data Collection Instrument  
1.10 Chapterization  

## CHAPTER - II : REVIEW OF RELATED LITERATURE 22-56

2.0 Introduction  
2.1 Studies on Information Technology Skills and related issues:  
  A Global Scene  
    2.1.1 Information Technology:  
      2.1.1.1 Application  
      2.1.1.2 Implications  
    2.1.2 Information Technology Skills:  
      2.1.2.1 LIS Professionals in General  
      2.1.2.2 Medical Librarians
2.1.2.3 Hospital Librarians 30
2.1.2.4 Academic Librarians 32
2.1.2.5 Public Librarians 34

2.1.3 Information Technology Skills:
2.1.3.1 Library Automation 35
2.1.3.2 Digital Libraries 35
2.1.3.3 Web Archiving 36
2.1.3.4 Electronic Resources 36
2.1.3.5 Chat Referencing 37
2.1.3.6 Web-Based Services 37
2.1.3.7 Library/Web 2.0 38
2.1.3.8 Learning Management Systems 38
2.1.3.9 Metadata 39
2.1.3.10 Training 39

2.2 Studies on Information Technology Skills and related issues:

Indian Situation
2.2.1 Information Technology: Application 43
2.2.2 Information Technology Skills: LIS Professionals 45
2.2.3 Information Technology Skills:
2.2.3.1 Library Automation 46
2.2.3.2 Digital Libraries 47
2.2.3.3 Institutional Repository (IR) 48
2.2.3.4 E-Journal Services 48
2.2.3.5 Bibliographic Database Creation 48
2.2.3.6 Web Technologies 49
2.2.3.7 E-Mail-Alerting System 49
2.2.3.8 Continuing Education and Professional Development 49

Iranian Situation
2.3 Studies on Information Technology Skills and Related Issues:
2.3.1 Information Technology: Application 51
2.3.2 Information Technology Skills 52
2.3.1.1 LIS Professionals 52
2.3.1.2 Medical Librarians 53

2.3.3 Information Technology Skills 53
2.3.3.1 Computer Literacy 53
2.3.3.2 Information Literacy 54
2.3.3.4 Digital Reference Services 54

2.4 Summary 55

CHAPTER – III: INFORMATION TECHNOLOGY SKILLS: AN OVERVIEW 57-107

3.0 Introduction 57

3.1 Basic Principles Concerning Automated Systems, Data Standards, and System Analysis Techniques 57
3.1.1 Basic Principles of Automated Systems 57
3.1.1.1 Power Source 57
3.1.1.2 Feedback controls 58
3.1.1.3 Machine programming 58

3.1.2 Library Automation 58
3.1.2.1 Integrated Library Management Systems 59
3.1.2.1.1 EasyLib Software 59
3.1.2.1.2 LibSys Software 59
3.1.2.1.3 Paras Azarakhsh and Nosa Software 60

3.1.3 Information Retrieval Systems 60
3.1.3.1 CDS/ISIS 60

3.1.4 Bibliographic Utilities 60
3.1.4.1 OCLC (Online Computer Library Center) 61
3.1.4.2 LocatorPlus 61

3.1.5 Data Standards 62
3.1.5.1 Data Structure Standards 62
3.1.5.2 Data Content Standards 62
3.1.5.3 Data Value Standards 63

3.1.6 Library of Congress Subject Headings (LCSH) 63
3.1.7 Medical Subject Headings (MeSH) 63
3.1.8 Z39.50 64
3.1.9 Resource Description Framework (RDF) 64
3.1.10 Dublin Core (DC) 64
3.1.11 MARC (Machine Readable Cataloguing) 65
3.1.12 AACR2 (Anglo American Cataloguing Rules) 65

3.2 System Analysis 65

3.3 Skills in Acquisition, Use, and Evaluation of Information Technologies 66
3.3.1 Transaction Log Analysis 66
3.3.2 Electronic Resource Assessment Systems (ERAS) 66
   3.3.2.1 Counting Online Usage of Networked Electronic Resources (COUNTER) 67
   3.3.2.2 Ulrich’s Serials Analysis System (USAS) 67
   3.3.2.3 ScholarlyStats 68
   3.3.2.4 Journal Use Reports (JUR) 68
   3.3.2.5 360 Counter 68
   3.3.2.6 Scholarly iQ 68

3.4 Integration of Systems and Technologies 69
3.4.1 Content Development 69
   3.4.1.1 Library Portals 70
   3.4.1.2 Intranet 70
   3.4.1.3 VLE (Virtual Learning Environment) 70
   3.4.1.4 Learning Objects (LO) 71
   3.4.1.5 Content Management Systems (CMSs) 71
   3.4.1.6 Referencing Software 72
   3.4.1.7 Digital Libraries 72
   3.4.1.8 Optical Character Recognition (OCR) 72
   3.4.1.9 Digital Asset Management System (DAMS) 72
   3.4.1.10 Metadata Systems 72
   3.4.1.11 Meta Search Systems 73
      3.4.1.11.1 WebLib 73
3.4.1.11.2 MetaFeat
3.4.1.12 Virtual Reference Services
3.4.1.13 Electronic Reserve Systems
3.4.1.14 Open-URL Link Resolver
3.4.1.15 Remote Patron Authentication (RPA)
3.4.1.16 Programming Languages
  3.4.1.16.1 Perl
  3.4.1.16.2 JAVA
  3.4.1.16.3 C++
3.4.2 Federated/Meta Search Engines
  3.4.2.1 Google Scholar
  3.4.2.2 Scirus
  3.4.2.3 Meta Search Engines
  3.4.2.4 Dogpile
  3.4.2.5 Vivisimo
  3.4.2.6 Kartoo
  3.4.2.7 Mamma
3.4.3 RFID (Radio Frequency IDentification)
3.4.4 Web-Based Knowledge Management
  3.4.4.1 Web 2.0 Tools
    3.4.4.1.2 Wikis
    3.4.4.1.3 Blogs
    3.4.4.1.4 Really Simple Syndication (RSS)
    3.4.4.1.5 SNS (Social Networking Services)
    3.4.4.1.6 Mashups
  3.4.4.2 Web 3.0
    3.4.4.2.1 Ontology
    3.4.4.2.2 Taxonomy
3.4.5 Intelligent Agents
3.5 Skills in Technology Solution for Permanent Access to Electronic Information
3.5.1 Digital Archiving and Preservation 84

3.6 Skills in Applications of Emerging Areas of Biomedicine, Computational Biology and Health Information, Including Electronic Health Care Systems and Records 84

3.6.1 Computational Biology (Bioinformatics) Databases 85

3.6.2 Electronic Health Records 86

3.6.3 Medical Informatics Standards 86

3.6.3.1 Unified Medical Language System (UMLS) 86

3.6.3.2 RxNorm 87

3.6.3.3 SNOMED CT 87

3.6.3.4 DICOM 88

3.6.3.5 H7 (Health Level 7) 88

3.6.4 Telemedicine and Hospital Information Systems 88

3.6.4.1 Mercury 89

3.6.4.2 Sanjeevani 89

3.6.4.3 E-Sushrut 89

3.6.4.4 Tejas 90

3.6.4.5 E-Chavi 90

3.7 Skills in Communication and Information Infrastructure Including the Internet and Web 90

3.7.1 Internet 90

3.7.1.1 Search Engines 91

3.7.1.2 Electronic Mail (E-Mail) 91

3.7.1.3 TCP/IP (Transmission Control Protocol / Internet Protocol) 91

3.7.1.4 Operating Systems 92

3.7.2 World Wide Web (WWW) 92

3.7.2.1 Web Browsers 92

3.7.2.2 Markup Languages 92

3.7.2.2.1 HTML (Hyper Text Markup Language) 93

3.7.2.2.2 SGML (Standard Generalised Markup Language) 93

3.7.2.2.3 XML (EXtensible Markup Language) 93
3.7.2.3 Web Page 93
3.7.2.4 Web Site Administration 93
3.7.3 Subject Gateways 94
3.7.4 LAN/WAN 94
3.7.5 OPAC (Online Public Access Catalog) 94
3.8 Assess, Select and Apply Current and Emerging Information Tools and Create Information Access and Delivery Solutions 95
3.8.1 Chemical Abstracts Services Document Detective Service (DDS) 95
3.8.2 Blackwell’s Uncover 95
3.8.3 BIOSIS Document Express 96
3.8.4 ISI Document Solution 96
3.8.5 British Library Document Supply Centre (BLDSC) 96
3.9 Competency to Apply Expertise in Databases, Indexing, and Information Analysis and Synthesis to Improve Information Retrieval and Use in the Organization 96
3.9.1 DBMS (Database Management System) 97
3.9.2 Databases Search Strategies 97
  3.9.2.1 Logical Boolean Combination of Terms 97
  3.9.2.2 Truncation of Terms 97
  3.9.2.3 Keyword, Uncontrolled Vocabulary Searching 98
  3.9.2.4 Controlled Vocabulary Searching 98
  3.9.2.5 Pre-Coordinated Vocabulary Searching 98
  3.9.2.6 Post-Coordinated Vocabulary Searching 98
  3.9.2.7 Searching Weighted Terms 98
  3.9.2.8 Searching Classified Arrays 99
3.9.3 Medical and Allied Health Databases 99
  3.9.3.1 PubMed 99
  3.9.3.2 MEDLINE 99
  3.9.3.3 Toxicology Literature Online (TOXLINE) 100
4.0 Introduction
4.1 Health Sciences Education in India
4.1.2 Medical, Dental, and Pharmacy Colleges in Karnataka
4.1.3 Medical Education in India
4.1.3.1 Medical Council of India (MCI)
4.1.3.2 History of Medical Council of India
4.1.3.3 Objectives of Medical Council of India
4.1.4 Dental Education in India
CHAPTER – V : THE PROFILE OF MEDICAL INSTITUTIONS AND MEDICAL LIBRARIANS

5.0 Introduction 123
5.1 Medical Institutions Profiles 123
  5.1.1 Country-Wise Distribution 123
  5.1.2 Types of Management 125
  5.1.3 Geographical Location 126
  5.1.4 Age-wise Distribution 127
  5.1.5 Courses Offered 129
  5.1.6 Annual Budget 130
5.2 The Respondents Profile 131
  5.2.1 Gender of the Respondents 131
  5.2.2 Age-wise Distribution of Respondents 132
  5.2.3 Educational Distribution of Respondents 133
  5.2.4 Area of Specialization 134
  5.2.5 Designation of the Respondents 135
  5.2.6 Work Experience of the Head of the Libraries 136
  5.2.7 Membership to the Professional Associations 138

CHAPTER – VI : MEDICAL LIBRARIANS’ INFORMATION TECHNOLOGY SKILLS

6.0 Introduction 140
6.1 Librarians’ Overall Attitude to Information and Communication Technology 141
6.2 Information Technology Usage 143
  6.2.1 Access to and Usage of Information Technology applications and systems 143
  6.2.2 Frequency of Information Technology Usage 146
  6.2.3 Experience of Using Information Technology 147
6.3 Skills in Automated Systems, Data Standards, and System Analysis techniques
  6.3.1 Automated Systems 149
6.3.2 Data Standards
6.3.3 System Analysis Techniques

6.4 Skills in Acquisition, Use, and Evaluation of Information Technologies

6.5 Skills in Integrated Systems and Technologies
6.5.1 Federated /Meta Search Engines
6.5.2 Radio Frequency IDentification (RFID)
6.5.3 Web-based Knowledge Management
6.5.4 Content Development Tools

6.6 Skills in Technological Solutions for Permanent Access to Electronic Information

6.7 Skills in Applications of Emerging Areas of Biomedicine, Computational Biology and Health Information, Including Electronic Health Care Systems and Records
6.7.1 Bioinformatics/Computational Biology Databases
6.7.2 Standards for Medical Systems
6.7.3 Health Informatics Products

6.8 Skills in Communication and Information Infrastructure Including the Internet and Web

6.9 Skills to Assess, Select and Apply Current and Emerging Information Tools and Create Information Access and Delivery Solutions
6.9.1 Provision of Access to Information
6.9.2 Electronic Document Delivery Systems
6.9.3 DELNET

6.10 Skills in Databases, Indexing, and Information Analysis and Synthesis to Improve Information Retrieval and Use in the Organization
6.10.1 Skills in Databases
6.10.2 Database Searching Strategies and Techniques
6.10.3 Medical and Allied Health Databases
   6.10.3.1 Medical Librarians Skills in National Medical Databases
6.10.3.1.1 Indian Medical Librarians Skills in IndMed

6.10.3.1.2 Iranian Medical Librarians Skills in Pars Medline and Iran Medex

6.10.4 Skills in Data Warehousing and Data Mining Techniques

6.10.5 Skills in Indexing

6.10.6 The Comparison of Information Technology Skills Possessed by Medical Librarians

6.11 Information Technology Skills Training

6.11.1 Respondents Participation in Information Technology Training

6.11.2 The Duration of Information Technology Training Programmes

6.11.3 Confidence in Receiving Enough Information Technology Training

6.11.4 Preference for Training Agencies

6.11.5 Preference for Mode of Information Technology Skills Training

6.11.6 Problems Impeding Information Technology Skills Training

CHAPTER – VII : SUMMARY AND CONCLUSION

7.0 Introduction

7.1 Issues Studied and Analyzed

7.2 Methodology

7.3 Summary of the Findings

7.4 Suggestions

7.5 Suggestions for Future Studies

7.6 Conclusion

BIBLIOGRAPHY

APPENDICES

QUESTIONNAIRE FOR LIBRARIANS
