ACKNOWLEDGEMENT

I take the opportunity to express my deep gratitude to my supervisor, Dr. Jayasree Roy Chowdhury, M.B.B.S., D.Phil., D.Sc., F.A.C.S., Scientist-in-Charge, Department of Tumour Biology, Chittaranjan National Cancer Research Centre, Calcutta, for her active guidance, kind encouragement and critical appreciation which enabled me to complete this work.

I am also indebted to the Director, Chittaranjan National Cancer Research Centre for kindly providing me facilities to work at this Centre.

Thanks are also due to the authorities of Chittaranjan Cancer Hospital and Seva Sadan, Calcutta, for kindly providing the tissues.

I have the pleasure to acknowledge all members of the Tumour Biology Department, Dr. Sukta Das, Mr. P. Pal, Miss Sipra Guhathakurta, for kind co-operation during the progress of the work.

Thanks are also due to Dr. Twisha Lahiri and Dr. Pulak Lahiri, for encouragement and valuable suggestions, to Mr. N. Saha for illustrations, and to Mr. A.P. Ghosh for typing the thesis.
The work has been carried out in the department of Tumour Biology during the tenure of the Fellowship from Council of Scientific and Industrial Research which is gratefully appreciated.
