Dedicated to
My Parents & Teachers
Acknowledgements

First and foremost, I would like to pay my homage to Almighty; whose presence keeps my spirit alive always and for giving me strength and fortitude, to complete this work successfully.

I feel privileged to place on record my deep sense of gratitude and indebtedness to Dr. J.C. Kuniyal, Scientist ‘E’ & Theme Head, Environmental Assessment and Management (EAM), G.B. Pant Institute of Himalayan Environment & Development, Himachal Unit, Mohal-Kullu, Himachal Pradesh, for expert guidance, constructive criticism and invaluable suggestions throughout this study period.

I am deeply indebted to Dr. Kalpana Chauhan, Assistant Professor, Department of Chemistry, Shoolini University of Life Sciences and Business Management Bajhol-Solan, Himachal-Pradesh for her constant and valuable guidance and suggestions.

I am extremely grateful to Dr. L.M.S. Palini, Former Director and Dr. P.P. Dhyani, Director (I/C), G.B. Pant Institute of Himalayan Environment and Development, Kosi-Katarmal, Almora, Uttarakhand for providing facilities, encouragements and inspirations.

I acknowledge Dr. S.S. Samant, Scientist ‘F’ and Scientist In-charge, Himachal Unit; Mr. Ranjan Joshi, Scientist ‘D’, Dr. R.K. Sharma, Scientist ‘D’ and all office staff of Himachal Unit of the Institute for their moral support and cooperation throughout the study.

I wish to express my deep sense of gratitude to Professor S.C. Tiwari, Dean Academic Audit and Regulations, Professor Sunil Puri, Dean of Academic affairs and Professor B.K. Kapoor, Head of the Department of Chemistry, Shoolini University, Solan for their kind support and encouragement during study period.

I am thankful to all the faculty members, Mr. Pankaj Sharma, Dr. Pankaj Thakur and Dr. Sunil Kumar of the Department of Chemistry, Shoolini University, for their kind support, help and encouragement in achieving this goal.
I would also like to thank Dr. Chetan Chauhan, Associate Professor, Department of Chemistry, School of Physical Sciences University, Ethiopia (Africa) in the University of Dilla and Dr. Guleria, Department of Higher Education, Himachal Pradesh for their constant moral support and guidance. All other research scholars and field assistants of GBPIHED, Himachal Unit are also acknowledged for their help and moral support.

I also acknowledge with lot of thanks to Atmospheric Chemistry Transport and Modeling (AT-CTM) project under Indian Space Research Organization, Geosphere Biosphere Programme (ISRO-GBP) through Physical Research Laboratory (PRL) and Aerosol Radiative Forcing over India (ARFI) through Space Physics Laboratory (SPL), VSSC, Trivandrum and Department of Science and Technology, Ministry of Science and Technology, Government of India, New Delhi for providing financial assistance to carry out this work. The author expresses her gratitude to ISRO for awarding fellowship under ISRO-GBP AT-CTM programme.

I acknowledge with thanks NASA for providing MODIS aerosol data (http://ladweb.nascom.nasa.gov/data/search.html) and NOAA Air Resources Laboratory (ARL) for the HYSPLIT transport and dispersion model used in the present work and the website (http://www.arl.noaa.gov/ready.html). The OMI O₃ and NO₂ data used in this publication were provided (http://avdc.nasa.gov/).

With all my love and affection, I place on record my indebtedness to my parents, Mother Smt. Veena Sharma and Father Shri Krishan Sharma for the encouragement and support and thanks to younger brother Mr. Anshul Sharma, for the encouragement and moral support and constant inspiration.

(Priyanka Sharma)
