ACKNOWLEDGEMENTS

Author wishes to express his sincere and deep gratitude to Dr. Samares Chaudhuri, Senior Lecturer, Department of Physiology, Midnapore College, Vidyasagar University and Guest Lecturer and Research Investigator, Department of Biochemistry and Biophysics, University College of Medicine, University of Calcutta and also Extra-mural Lecturer, Department of Biochemistry and Biophysics, University of Kalyani, who originally introduced him into this field of research and under whose guidance the present thesis work has been carried out. Also author wishes to express deep gratitude to Dr. Swapna Chaudhuri, Senior Research Associate, Department of Biochemistry and Biophysics, University College of Medicine, University of Calcutta, who also guided him to this specific line of work.

Thanks are due to Dr. Arun Kumar Ghosh, Professor and Head of the Department of Biochemistry and Biophysics, University College of Medicine, University of Calcutta, who kindly permitted and inspired the author to carry on the present thesis work in this department.

The author expresses his deep gratitude to his parents, Kvj. Hari Pada Sinha, Principal and Founder, Naba Kalpataru Ausadhyalaya, Midnapore and Dr. (Mrs.) Renu Bala Sinha for constant inspiration to this vexed problem of the dreadful disease of Cancer.

Thanks are also due to Dr. Sobhendranath Ghosh, Professor and Head; Dr. Bijon Roy, Professor, Department of Nuclear and Experimental Medical Sciences, Institute of Post Graduate Medical Education and Research, Calcutta; Dr. G. Kundu, Professor, Department of Pathology, S.S.K.M. Hospital, Calcutta and Dr. Dilip Kumar Mukherjee, Scientist-in-Charge, Regional Sophisticated
Instrumentation Centre, Bose Institute, Calcutta, for the facilities obtained. The author wishes to express his gratitude to Mr. Nikhilesh Chaudhuri, Scientist-in-Charge, Scanning Electron Microscope Unit, Indian Association for the Cultivation of Sciences, Calcutta.

The author expresses his deep gratitude to Dr. A. Basu, Ex-Professor, Department of Ophthalmology, R.G.Kar Medical College, Calcutta; Mrs. Arati Basu; Dr. A. B. Dutta, Director, Duttanagar Mental Health Centre, Calcutta and Mr. Susanta Dey, Senior Research Fellow; Mr. Shyamal Raha, Senior Research Fellow, Bose Institute, Calcutta, for providing constant and active inspiration without which the present thesis work would not have been fruitfully completed.

The author, also, acknowledges gratefully the very helpful co-operation of his colleague, Sri Arup Sengupta.

Grateful thanks are also due to Sri Parimal Chaudhury, Research Assistant, Department of Nuclear and Experimental Medical Sciences, Institute of Post Graduate Medical Education and Research, Calcutta; Sri Nemai Chandra Dolai and Sri Adhir Chandra Das, Department of Biochemistry and Biophysics, University College of Medicine, University of Calcutta. The author also wishes to thank Mr. Srijit Basak, for taking all the pains in typing out the whole manuscript.

The author acknowledges, with thanks, support of grant of Research Scholarship from R.D. Birla Smarak Kosh, Bombay, India.

Dated, Calcutta,

(AMARES SINHA)
