ACKNOWLEDGEMENT

The author wishes to express his deep sense of gratitude to Prof.(Dr.) Ashis Kumar Samanta, Professor, Department of Jute and Fibre Technology, Institute of Jute Technology, University of Calcutta, Kolkata, for his time to time valued advices and continuous motivation during the course of this research work.

The author is also thankful to Prof. (Dr.) Sunil Sett, Head of the Department, Department of Jute and Fibre Technology, Institute of Jute Technology, University of Calcutta, Kolkata and also to Dr. Adwaita Konor Asst. Prof.(contractual) and Mr. Debashish Roy, Sr. Tech Asst., Mr. Pratap Chottoraj, Jr. Tech Asst. and Mr. Mohan Jaiswar, Lab Attendant, of the Textile Chemistry Section and all other staff members of the Institute for their time to time support and active help to complete the present work at the Textile Chemical Processing Lab. of Dept. of Jute and Fibre Technology, Institute of Jute Technology, University of Calcutta.

The authors express his gratitude to all the SRF/JRF of JTM-R & D Projects-8,10 & 17 and other Project staff members of the Textile Chemistry Sections, Department of Jute and Fibre Technology, Institute of Jute Technology, University of Calcutta, Kolkata; specially speaking thanks are due to Mrs. Reetuparna Roy, Mrs. Kashmita Bhattacharya, Research Fellow, Mr. Debjyoti Ghosh, Mr. Swapan Kumar Das and Mr. Nanda Gopal Chakraborty, for their time to time help. Special thanks are given to Dr. S.K. Biswas Asst. Professor for providing necessary help and cooperation in some of the experimental work and thermal analysis facilitating timely completion of this study.

The author would like to express deep gratitude to his wife, son and some friends for their active support and cooperation for successful completion of the work.

Date: (Arindam Bagchi)

Department of Jute and Fibre Technology, Institute of Jute Technology, University of Calcutta, Kolkata.
