ACKNOWLEDGEMENT

I express my sincere gratitude to my supervisor Dr. Pinaki Acharyya, Assistant Professor, Department of Horticulture, Institute of Agricultural Science, University of Calcutta, for his guidance, suggestions, constructive criticism and continuous encouragement during the tenure of this dissertation.

I express my profound gratitude to my Associate-supervisor Dr. Tapas Kumar Ghose, Associate Professor, Division of Plant Biology, Bose Institute, for his able guidance, suggestions, constructive criticism and continuous encouragement during the tenure of this investigation. His knowledge about the subject, visions about academia and concerns about the society has enriched my scientific outlook and has helped me evolve as a better human being.

I express my sincere gratitude to the Vice Chancellor, Calcutta University, Prof. Suranjan Das for providing the financial assistance received from Calcutta University (URF, 2006-2011).

I express my sincere gratitude to the Director, Bose Institute, Prof. Shibaji Raha for allowing me to use the facilities to conduct a major part of my research work in the prestigious Institute.

I express my sincere gratitude to the Director, Institute of Agricultural Science, Prof. Ajit Kumar Dolai for his constant encouragement.

It is an honour for me to express my gratitude to Prof. Kalyan Kumar Mukherjee, Ex-Faculty, Division of Plant Biology, Bose Institute for his advice regarding scholarly conduct and for his relentless efforts of uplifting my morale at times of despair.

I express my sincere gratitude to Prof. Swati Sen Mandal, Emeritus Scientist, Division of Plant Biology, Bose Institute for allowing me to use the facilities of her laboratory at times of need and also for her constant encouragement.

I would like to thank Prof. Monoj Kumar Sadhu, Ex-Head, Department of Horticulture, Institute of Agricultural Science, Calcutta University for his constant encouragement.

I would like to thank Prof. Swati Gupto Bhattacharya, Faculty, Division of Plant Biology, Bose Institute for her support during times of need.

I express my gratitude towards Prof. Sabita Bhattacharya, Faculty, Division of Plant Biology, Bose Institute for her moral and philosophical support.

I would like to thank Prof. Samir Ranjan Sikdar, and Dr. Gaurab Gangopadhyay for their assistance, guidance and encouragement.
I would also like to thank Prof. Meher Engineer, Ex. Director, Bose Institute for his visions of science and lively conversations which has improved my outlook towards research and humanity.

I also wish to thank Prof. Francis Zee, Curator, Tropical Plant Genetic Resources Center, United States Department of Agriculture for providing me the highland papaya germplasms. Thanks are also due to Dr. M.R. Dinesh, Principal Scientist, Division of Fruit Crops, IIHR, Bangalore and Prof. T.N. Balamohan, Head, Department of Fruit Crops, TNAU, Coimbatore for providing me some of the papaya cultivars.

I would also like to thank Dr. Seema Baneerjee, Ex. Assistant Professor, Ranaghat College for being a good philosopher and friend during the tenure of this dissertation.

I express my gratitude to all my seniors from this lab for their cooperation and useful suggestions on conducting the experiment. I would especially like to thank my colleague Basabdatta Das for enriching my thesis by her suggestions and constructive criticism. Bipasha Roy, my junior deserves special mention for encouraging and helping me during writing of the thesis.

Thanks are also due to Lopamudra Chakraborty, Chandan Mandal, Uttom Saha, Biswanath Sahoo my colleagues at Department of Horticulture, Institute of Agriculture Science, Calcutta University for assisting in my work.

My sincere thanks goes to Jadav da and Bipul da for their technical assistance.

I sincerely thank all the staff members of the Madhyamgram Experimental Farm, Bose Institute, without whose help in cultivating the genotypes, this investigation would have been impossible. I would also like to thank Sarama Pradhan, Lab Attendant, Division of Plant Biology, Bose Institute for providing me with conducive work environment in the lab.

Finally, I thank my parents for their support and encouragement during the course of investigation.
