Acknowledgement

At the very outset, I humbly place my profound gratitude to God Almighty for providing me this opportunity, bestowing strength, perseverance and illimitable blessings showered on me without which these efforts would not be victorious. I am beholden to a number of people who supported me to carry out this work and have made this mammoth work possible. I take this opportunity to acknowledge them and extend my sincere gratitude for helping me make this Ph.D. thesis a possibility.

I am deeply indebted to Padmabhushan Dr. T.S. Avinashilingam, Founder and First Chancellor and Padmasree Dr. Rajammal P. Devadas, first Vice Chancellor, former Chancellor, Avinashilingam Institute for Home Science and Higher Education for Women, Coimbatore, for the manifold blessings in making this research work a reality.

It is great pleasure to acknowledge my deepest thanks and gratitude to Padmasree Dr. P.R. Krishnakumar, Chancellor, Avinashilingam Institute for Home Science and Higher Education for Women, Coimbatore, for their blessings and opportunity rendered to carry out the research work in this esteemed institute.

I would like to take this opportunity to wholeheartedly thank Dr. Premavathy Vijayan, Vice Chancellor, Avinashilingam Institute for Home Science and Higher Education for Women, Coimbatore, for providing the facilities to carry out the study.

I sincerely grateful to Dr. S. Kowsalya, Registrar, Avinashilingam Institute for Home Science and Higher Education for Women, Coimbatore, for providing all the help for the smooth conduct of the study.

I owe a deep sense of gratitude to Dr. K. Manimozhi, Controller of Examination and Dr. G. P. Jeyanthi, Director (Research and Consultancy), Avinashilingam Institute for Home Science and Higher Education for Women, Coimbatore, for their constant help and support at all times of need.

It is a genuine pleasure to express my heartily profound sense of thanks and gratitude to my esteemed supervisor, Dr. N. Vasugi Raaja, Dean, Faculty of Home Science, Professor, Department of Textiles and Clothing, Avinashilingam Institute for Home Science and Higher Education for Women, Coimbatore, offering valuable advice, fathomless patience, warm encouragement, thoughtful guidance, insightful decision, critical comments, unfailing support to execute my research work and complete it successfully.

I want to express my deep thanks to Dr. S. Amsamani, Professor and Head, Department of Textiles and Clothing, Avinashilingam Institute for Home Science and Higher
Education for Women, Coimbatore, for her encouragement and constant support to conduct the research work.

I feel extremely grateful to thank all the faculty members of the Department of Textiles and Clothing, Avinashilingam Institute for Home Science and Higher Education for Women, Coimbatore, for their valuable suggestions and support.

I am grateful to Dr. J. Srinivasan, Professor and Head, Department of Fashion Technology, Kumaraguru College of Technology, Coimbatore, for acting as a doctoral committee member and giving constructive suggestions throughout the research work.

It is my privilege to place my special heartfelt thanks to my friend Mr. S. Sathiesh Kumar, Assistant Professor, Department of Nanotechnology, Sri Ramakrishna Engineering College, Coimbatore, for his whole hearted support, valuable time spent for me and I highly value our discussions on the thesis, comments, support, opinion, suggestions and ideas that contributed during the whole period of the study.

I am deeply grateful to thank all my dear friends, colleagues and relatives for their continuous help, constant mental support and motivation. My special thanks to my friend Dr. C. Balakumar for his moral boosting and immense encouragement which helped me throughout my research work.

I thank profusely to Dr. N. R. Alamelu, Principal, Sri Ramakrishna Engineering College, Coimbatore for permitting to utilize the lab facilities in the Nanotechnology Department and also I thank all staff members, lab assistance and friends of Department of Nanotechnology, Sri Ramakrishna Engineering College, Coimbatore for their kind help in carrying out the research works relevant to nanotechnology.

My many fold gratitude goes to Dr. R. Rajendran, Principal, and my seniors, research scholars, friends, Department of Microbiology, PSG College of Arts & Science, Coimbatore, for all their technical support while analyzing my samples.

I express my earnest thanks to South Indian Textile Research Association (SITRA), Avinashilingam Institute for Home Science and Higher Education for Women, Coimbatore, for permitting to utilize the library and laboratory facilities.

I owe my respectful thanks to Prof. M. Karuna Moorthi, Retd. Professor, Government Arts College, Coimbatore, for his intellectual support in shaping the thesis. I would also like to thank my friend K. Kongarasi for her timely encouragement and efforts in explaining me the technical parts whenever I was in need. I express my gratitude to my cousin K. Kiruba Ananth for his moral support and strength whenever I was in trouble.
Most importantly, I present all honors, adoration and my deepest regard to the closest persons of my life who mean a lot to me, my parents, Mr. S. Sampath and Mrs. S. Saraswathi, for their unconditional trust, care, willingness to endure many sacrifices, endless patience, valuable prayers and love which gave the strength to overcome obstacles while doing this research work. All the support they have provided me over the years was the greatest gift anyone has ever given me. I would also like to thank Mrs. S. Gowri, my sister and my brother-in-law, Mr. S. Rajkumar for their constant encouragement and motivation. I appreciate my nephew, my little boy R.G. Vyan Varshan for abiding my ignorance while carrying out my research. This journey would not have been possible without the support of my family members.

Finally, I express appreciation to everyone, not mentioned here, who had chipped in fragments of assistance for the completion of my Ph.D., work.

Aruna Sampath
