List of Tables

**Table 2.1:** Relation between (hkl) the Miller indices, the inter planar spacing of the crystalline silicon and the angle of diffraction………………………………48

**Table 2.2:** Vibrational frequencies of SiH$_x$ (x = 1-3), Si-N and N-H in a-SiN$_x$:H thin films[38,39]………………………………………………………………51

**Table 3.1:** Raman data for the nc-Si/a-SiN$_x$ films prepared at different NH$_3$ to SiH$_4$ flow ratio, $R$………………………………………………………………88

**Table 4.1:** Mott-VRH data for the nc-Si/a-SiN$_x$:H films prepared at different NH$_3$ to SiH$_4$ flow ratio, $R$…………………………………………………………132

**Table 6.1:** Crystallinity and grain size of nc-Si/a-SiN$_x$:H QDs thin films prepared at different growth temperature, $T_S$……………………………………167
