ACKNOWLEDGEMENT

It is a great pleasure for me to express my profound sense of gratitude and indebtedness to Dr. T. K. Maitra, Chief of Pathology and Laboratory Medicine, Kothari Centre of Gastroenterology, Calcutta, for his constant guidance, encouragement and valuable suggestions throughout the course of this investigation.

I am also grateful to Dr. K. N. Jalan, Chief Co-ordinator, Kothari Centre of Gastroenterology, for his valuable suggestions and for providing me necessary facilities to carry out this work.

I am indebted to Professors Shakuntala Dasgupta, Dr. A. Chatterjee and Dr. B. N. Koley, Department of Physiology, Science College, Calcutta University for keen interest in my research programme and their valuable suggestions given to me.

Heartiest thanks are due to Dr. R. M. Mukherjee, Dr. K. C. Bhol, Dr. A. Mohimen, Dr. M. Banerjee and Mr. S. Mehra for their friendly co-operation and sincere help during this work.

I record my appreciation for the co-operation received from and patience displayed by my husband, Dr. P. Mazumder during the long period of conducting research investigation and writing up the dissertation.

Finally, I would like to thank Ms Ruby Das of Eve's Typonics, Calcutta, for Electronic Printing of this thesis.
