CONTENTS

Abbreviations used

CHAPTER - I : Introduction :

A. Galactose metabolism in Historical perspective

B. Pathways of Galactose metabolism

C. Enzymes of Leloir pathway

D. Properties of UDPglucose-4-epimerase from different sources

E. Properties of UDPglucose pyrophosphorylase from different sources

F. Galactosemia and galactose toxicity

G. Galactose metabolism and toxicity in brain

CHAPTER - II : Materials and Methods

CHAPTER - III : Results

CHAPTER - IV : Discussion

CHAPTER - V : Summary
