Mr. Fergusons observations on the argee delivered by the Gomostahs and Dulolls on the part (sic) of the Dutch Company in the aurung Santipore.

In the preamble they set forth -

“That after much time had elapsed arrived

“to begin their purchases, and that consequently

“they used all their endeavours to become successful “therein”.

This eviencens pretty strongly that they are now disappointed inpurchasing cloths which had been made with the company’s advances a practice very general of late, altho’ there is a standing order of this Government dated 29th April 1782 - strictly forbidding it, and which was notified throughout the aurung about four months ago.

Mr. Beanland who is at present heudencis having sent a peon for Roggoo mannee as stated in the argee. The cause in this the company’s weavers for these last four months have not delivered above one quarter part of the usual quantity of cloths for the investment, alltho these is not one of them but what has advances in hand for two or three pieces. It was therefore found necessary to station peons to prevent them from working for other people. The

aprementioned Roggoo mannee being selected in making advances to the weavers was brought to the Factory by one of those peons, and Mr. Beanland acknowledges that he took a mootchulka from him not to take any more advances to the company's weavers, and for bid the other complaints doing it.

The Gomostah Khissore Sandel who is now employed under Mr. Beanland had the sole management of the Santipore auring on the part of the company many years and he insists that during his superintendship the company's weavers were not permitted to work for others people. A like complaint to the present was exhibited against him both by the French & Dutch during Mr. Verelests Government, and it was then resolved that those weavers who were wnrolled in the factory looks (sic) should be solely employed for the company, nor is it possible that any contractor would be success in the provision of an investment unless this rule is adhenced to - It is necessary to observe that those weavers have been constantly kept in employment by the company and therefore it can not be denied (sic) a hardship to make them contribute their labour to the company impreferece when necessity requires it - That the company withdraw their advances but for twelve months before this rivalship took place, there would have been a general complaint from the weavers that they were all starving, they would have pleased that from their infancy they had been taught no other manufactory than the companys assartment, and that their sole consistence depended thereon.

Not half of the weavers of Santipore are employed by the Company, the rest worth for whom they please.

Circulated President with the following Minute; the proportion in which having
 been approved the necessary orders and Intimation were
accordingly sent to Mr. Bebb & Furgusson.

President's Propositions

& orders accordingly From the confusion existing at Santipore and
 the declaration from Mr. Furgusson of the
difficulties he experinces in completing the arguments made with Mr. Crofles
for the last year's judgement as well as performing his offers for the present, it
is to be apprehended that the company may be disappointed in the timely
provision of the small quantity of goods tendered from the auring which are
much less than what is required and as it is incumbent on the Board to use
evrey means for the presentations of the investment which so valuable an auring
yearlds (sic). The president proposes that a Civil Servent be immediately deputed
to enquired in to the causes of the refractory disposition testified by the weavers
into the compaints made by the french and dutch regarding that auring, to use
his endeavours for the accommodation of the present disturbances and to inform
to the Board of his opinion of the competency of the auring to furchish the
provision required from thence for the present season.

The president further moves that Mr. John Bebb be deputed on this service
that the secretary furchishe him with copies of the papers now in circulation as
well as any other on the records which may tend to assist the business of his
deputation. That Mr. Furgusson be informed of his deputation.

BOARD OF TRADE

COMMERCIAL

PROCEEDINGS

3rd January - 28th Feby 1801

Fort William the 3r^d February 1801 -

Read the following translations of Petitions from sundry weavers of the Soonabarrya Aurung a Dependency of the Santipore Factory :

Translation of 1 st Petition from Soonabarrya Aurung	Translation of a Pition from the weavers of the Soonaberrya aurung to the Board of Trade dated - received the 9th Jany. 1801.
--	---

We have all along been employed in weaving cloths upon advances from the Hon'ble Company agreeable to their Musters, and our cloths have been always priged on the said Musters and received. In this manner receiving, advances, weaving and delivering cloths at the factory, we were comfortably maintaining ourselves, together with our families. For the last six or seven years, a person on behalf of Seebram Sandyaul, named Ram mohun Lahorry has been Gomastah at the Noboneah Factory under the above aurung who has taken a perquisite of one Rupee upon every piece of cloth advanced for at eight or nine Rupees, and also a Rupee upon each piece for which sixteen or eighteen Rupees are advanced, making a perquisite of two Rupees upon every two pieces of cloth, which is deducted from the advance before it is paid. It complaint is made to the Head Gomastah Sandyal, he prevents our representattions reaching the Resident, and harrasses by putting us off from time to time, and we are under the necessity of delivering cloths agreeable to the prescIbid qualities, to the Gomasth at Noboneah the under factory, who

sorts and receives them, after which Shandyal the Head Gomostah at the Soonabarrya Factory and Panchoo Jawchondars changed the descriptions of the cloth, and prije them as Cloths of the third, fourth and fifth letters which causes a loss of three of four Rupees on each piece.

The delivery of Cloths is inserted in our tickets, three ot four months after the dispatch of the cloth from Sonabarrah, to Calcutta and any loss which results from the conclusive prising is placed to our debit, which loss not leave us the prime cost of our thread. In this manner we and our families are reduced to great distress.

The cash keeper at the Head factory, Shandyal takes a perquisite of one Rupee, upon the advance given for every piece of Fine cloth; again when we deliver the same at the public Factory the Head Gomostah Shibram Sandyaul and Panchoo Jawchonedaur examine the cloths and receive them in our presence, but afterwards when they under them in our Tickets they enter them a letter lower than their qualities, and cause us to loss the differenced. In this manner all the different sorts of Cloths we deliver, are brought to account in our Tickets, a letter lower than their value, by which we loss an anah in every Rupee. When we ask Sandyal, why he has entered our cloths a letter lower than their value. He says, that the weavers of every Factory allow him the difference, of one gradation as a ferquinte (sic), and that we must also pay it, and that if we object we shall not receive any advances. In this manner he unjustly with holds one anna in every Rupee on the advances made to us. He makes a difference of one letter to us in the different Cloths that he despatches to Calcutta; if we were aware of the particulars of the delvery at Calcutta, we should be able to set forth the loss he accassions (sic) to the Hon'ble Company.

Half of anna in the Rupee is deducted by him under the head of Croperage (sic), we do not know what pieces of Rupee Shandyal Receives from

Government, for the advances, but he pays us in money on which we sustain a loss of One or to anna, in every Rupee. If the weavers to avoid these Oppressions move to other places, it will be detrimental to the Public Business. We therefore pray that the Board will be pleased to Summon the Noboneah Gomastah Ram mohon Lahorry, cash keeper & Bhyrub Sandyal and Panchoo and the Head Gomastah Seebram Sandyal and render us Justice, and we will prove the respective charges.
