CHAPTER-IV: Agricultural development:

Cropping pattern: Food grain crop, Fodder crop, Crop association region, Land reform, Ceiling of land holdings, Progress of consolidation operation, Need of some basic infrastructures for agricultural development, Irrigation network, Electric transmission, Agricultural extension facilities, Agricultural innovation, Agricultural mechanization, Methodology used in the present work programme and resource development.

CHAPTER-V: Industrial development:

Growth of industries, Spatial
distribution of industries,
Small scale industries,
Large scale industries, Problem
of industrial development, Some
suggestion for industrial development.

CHAPTER-VI: Spatial Organization and 148-205
Rural development:

(A) Social economic facilities and
their spatial functional organization.
(B) Transport system.
(C) Service Centres.

CHAPTER-VII: Planning for integrated rural 206-227
development in the study area:

Planning for agricultural
development, Planning for
industrial development, Planning
for service centre, Planning for
social infrastructure.

Summary and Conclusion. 228-235
