Maths Assignment-I

1. There are 29 boys and 14 girls in IVth std. How many children are there altogether?

2. Renu bought a saree for Rs 315 and a blouse piece for Rs.30. How much did she pay to the shopkeeper?

3. 115 women and 275 men work in a biscuit factory. How many people in all work in the factory?

4. Ramu went for a long drive. He covered 36 km. In the first hour, 42 km. in the second hour and 46 km. in the third hour. How many km. did he travel in three hours.

5. Raghu collected 215 stamps. His brother gave him 75 stamps. How many stamps did Raghu have?

6. Neelu had 3 cows. One gives 14 litres of milk everyday, the second one 13 litres and the third one 9 litres of milk. How many litres of milk in all do the three cows give?
Assignment :- 2

1. Ram's income last year was as follows :-
   Salary Rs 6720 and from Agriculture Rs 3287.
   What was his total income last year ?

2. In Nirmalwadi there are 945 men, 869 women and 436 children.
   How many people in all are there in that wadi ?

3. An office employs 312 clerks, 9 officers, 18 peons.
   How many people in all work in this office ?

4. Manubhai purchased the following for his hostel
   Wooden furniture Rs. 2342
   Utensils Rs. 887
   What is the total cost ?

5. A village library has 840 Marathi books, 259 Hindi books and
   58 English books.
   How many books in all are there in the library ?

6. Sunil made the following purchases.
   A radio for Rs 540,
   a fan for Rs 347, a bicycle for Rs 589.
   How much did Sunil spend in all ?
Assignment :— 3

1. Bharti read 72 pages out of the 150 pages of a book. How many pages has she to read yet?

2. Amit's grandma is 60 years old. Amit is 49 years younger than his grandma. What is Amit's age?

3. Vandana made bouquets of 207 of the 254 flowers she had. How many flowers were left?

4. Sudhir bought articles worth Rs 48 from a store. He gave the store-keeper a hundred rupee note. How many rupees should he take back from the shop-keeper?
Assignment: - 4

1. Suresh had 5 rupees. His mother gave him 4 rupees. He gave 2 rupees to baby. How many rupees are left with him?

2. Kishore had 3 pencils. His uncle gave him 2 pencils. He lost 1 pencil. How many pencils are left with him?

3. A can contained 12 litres of kerosene. Today 2 litres of kerosene was used up and 5 litres were bought. How many litres of kerosene is in the can now?

4. A tank contained 5 buckets of water. 12 buckets of water were poured into it. 9 buckets of water were then used. How many buckets of water remained in the tank?

5. Jitu had 2 cows. One gives 9 litres of milk and the other 5 litres of a day. He sells 2 litres of milk everyday. How many litres of milk are left for the use at home?
Assignment:- 5

1. Sunita's weight was 18 kg. During her illness she lost 4 kg of weight. After recovery she gains 3 kg. What is her weight now?

2. Sushma had 8 chairs in her house. Two out of them were broken. Father then bought 5 new chairs. How many chairs are there now in Sushma's house?

3. There are 28 boys and 14 girls in IVth std. Out of them 36 can speak Marathi. How many of them can't speak Marathi?

4. Rama's weight was 25 kg. During her illness she lost 3 kg of weight. After recovery she gained 2 kg. What is her weight in kg?

5. There are 12 boys and 13 girls in Std VI. 16 of them can talk in Marathi. How many of them can't talk in Marathi?
Assignment:- 6

1. In a class 2 children are sitting in one bench. How many children can sit in 13 benches?

2. 14 children are standing in a row. How many children can stand in 32 rows?

3. 72 garlands were made each containing 50 roses each. How many roses will be needed?

4. A clock costs Rs 98. What would be the cost of 42 such clocks?

5. A table costs Rs.316. What would be the cost of 54 such tables?
Assignment :-7

1. A motor cycle costs Rs 7,537. What is the cost of 512 motor cycles?

2. A godown can contain 1,225 bags of food-grains. How many bags of food grains can be stored in 1225 godowns.

3. A cement factory produced 5,380 bags of cement daily. One year the factory worked for 297 days. How many bags of cement were produced during that year?

4. A merchant sold 3246 bales of shirting. Each bale contained 138 mts of cloth. How many metres of cloth did the merchant sell?
Assignment:- 8

1. Each row is consists of 31 pupils. How many rows can be formed with 655 pupils? How many pupils will be left over?

2. The school gets Rs 936 towards the payment of scholarship, at the rates of Rs 36 per Student. How many students have to be given the amount of scholarship?

3. 16 oranges cost Rs 32. What is the cost of 1 orange? What is the cost of 23 oranges?

4. 16 umbrellas cost Rs 224. How much would 1 umbrella cost? How much would 80 umbrellas cost?

5. 18 glasses cost Rs 90. How much would 9 glasses cost?

6. Fees of 27 children is Rs 108. How much is it for 3 children? How much for 135 children?

7. Cost of 28m of cloth is Rs 196. What is the cost of 7m of cloth?

8. The fees of 24 children is Rs 144. What will be the fees for 4 children? How much for 96 children?
1. If you buy the following items from a shop -
   - 1 Pkt Nirma (Rs. 9.00)
   - 1 Kg Wheat (Rs. 3.50)
   - 1 Kg Rava (Rs. 4.50)
   - 1 Kg. Sweat Oil (Rs. 22.00)

   How much money have you to pay the shop-keeper.

   If you are given Rs. 10.00 how much money will be left with you? (5)

2. You are Rs. 25.00 and asked to buy the following. How much money will be left with you?
   - 1 Kg. Sabudan - Rs. 7.00
   - 1 Dozen 1 Match Box - Rs. 3.00
   - Tea - Rs. 21.00
   - Noodles - Rs. 4.00

### Answers
- Q.1. 4,342
- Q.2. 1,742
- Q.3. 1,14,715
- Q.4. Rs. 83,136/-
- Q.5. 75,000
- Q.6. Rs. 1,000
Q.7. A cycle costs Rs. 420/-. What is the cost of 22 cycles?

A-7.

Q.8. 10 pens were purchased at Rs.12/- each. They were all sold for Rs.150/-. Was there a profit or loss? How much?

A-8.

Q.9. 48 children joined a trip. The total expenses were Rs.5040/-. How much had each to spend?

A-9.

Q.10. Abhay started buying a daily newspaper from 2 Apr 1980 and continued upto 15 Aug 1980. For how many days did he buy the newspaper?

A-10.

Q.11. 20 Kg of rice costs Rs.80/-. How much does 1 Kg cost?

A-11.

Q.12. A bag contains 4 Kg of seeds. What is the total weight of seeds in 17 bags?

A-12.

Q.13. Umbrellas were bought at Rs,18/- per umbrella. They were sold at a profit of Rs. 52/-. What was total selling price of the umbrellas?

Q.14. 105 Kg onion costs Rs. 75/-. How much can you get for Rs. 25/-?

A-14.

Q.15. Our school received Government grant of Rs. 10,000/-. The amount was spent on purchasing the desks at Rs. 52/- each. What was the amount left over?

A.15.
1. There are 54,531 males and 49,978 females in the city of Radhanagar. 55,283 of them can read and write. How many can't read and write.

2. There are 90,000 males and 20,000 females in a city. 15,000 of them can't read. How many can read?

3. 1,735 quintals of jaggery was produced in one of Bala Saheb's crushing mills and 836 quintals in the other. He sold 1,982 quintals and stores the rest. How much did he store?

4. The Mission school had 1,623 pupils at the beginning of the year. 343 new pupils joined the school, while 187 left the school. How many pupils did the school have by the end of the year.
ASSIGNMENT -2

1. The number of secondary schools in the State of Maharashtra was 4777 in 1968. In 1978 it was 5905. By how much did the number of schools increase during the period 1968 to 1978?

2. Chandalal had a stock of goods worth Rs.53,831 in his shop. Out of it he sold goods worth Rs. 27,750 for cash and goods worth Rs. 8,927 on credit. What will be the total price of the remaining stock of goods?

3. 8593 hectares of land is available in addition to 983 hectares of cultivated land. 3789 hectares belong to the government. How much land belongs to others?

4. Ram had a stock of goods worth Rs.64,384 in his shop. Out of it, he sold worth Rs.29,634 for cash and goods worth Rs. 7,426 on credit. What will be total price of the remaining stock of goods?

ASSIGNMENT-I

1. There are 275 flowers in one basket. How many flowers will be there in 35 baskets?

2. A motor cycle costs Rs. 7,537. What is the cost of 512 motor cycles?

3. A godown contains 1225 bags of good grains. How many bags of food grains can be stored in 125 godowns?

4. A cycle costs Rs. 536. What will be the cost of 225 cycles?

5. A godown contains 2385 bags of cement. How many bags of cement can be stored in 215 godowns?

6. A basket contains 72 apples. How many apples will be there in 95 baskets?
1. A cement factory produces 5,380 bags of cement daily. One year the factory worked for 297 days. How many bags of cement were produced during that year?

2. A khadi bandar sold 3,246 bales of shirting. Each bale contained 138 mt. of cloth. How many metres of cloth did the Bhandar sell?

3. All the food grains in the barn of Shri Ganpath was filled up in 542 bags with 102 kg in each bag. How much grain was there in the barn?

4. A cement factory produces 4,381 bags of cement daily. One year the factory worked for 281 days. How many bags of cement were produced during that year?

5. A Khadi Bhandar sold 2981 bales of shirting. Each bale contained 175 mt of cloth. How many mts of cloth did the bhandar sell?
1. Each row is to consist of 31 pupils. How many rows can be formed of 655 pupils. How many pupils will be left over?

2. The school got Rs.936 towards the payment of scholarship at the rate of Rs.36 per student. How many students can be given the scholarship?

3. How many bedsheets at the most could be bought for a sum of Rs.18,744 at Rs.37 each. How much amount would be left over?

4. A scooter goes 35 km per litre of petrol. How many litres of petrol will be required for a journey of 2,835 km?

5. 48 children joined a trip. The total expenses were Rs.5040. How much had each to spend?
1. If the price of a clock is Rs.500. How many can are buy in Rs.6672. How much will be the balance.

2. Book cases cost Rs.270 a piece. Find the maximum no. of book cases one can buy in Rs.8060?

3. A fund of Rs.40,182 is to utilized towards the purchase of cots for the Kasturba Memorial Hospital. Find the maximum number of cots that can be purchased from the fund, if, each cot costs Rs.275?

4. A school received Rs.9728 to buy educational films. How many films can be bought if each cost Rs.423?

5. A hut costs rs.593. Find the max. number of huts that can be built in Rs.1,92,546?
1. If a measuring a hectare of land costs Rs.413. What is the max. number of hectares if land that can be measured in Rs.9,49,064?

2. A bag of wheat costs Rs.217. In a godown wheat worth Rs.2,35,879 is there. How many bags of wheat are there in the godown?

3. 41 persons participated in a tons of S. India. If the total expenses were Rs.11,890. How much does each participant have to pay?
1. 4 Mts of cloth costs Rs.12. What will be cost of 18 mtrs of cloth?

2. 16 Umbrellas costs Rs.228. How much would 80 Umbrellas cost?

3. Fees of 27 children is Rs.108. What will be the fees of 135 children?

4. Cost of 28 m of cloth is Rs.196. What is the cost of 56 m of cloth?

5. If 25 boys contain 2400 Kg of rice. How much rice can be contained in 57 bags?

6. The fee collection from 150 students is rs.2250. How much amount will be collected from 45 students?
Find the Least Common Multiple (L.C.M) of the following:

1) 48, 80
2) 36, 81
3) 45, 60
4) 108, 96
5) 105, 165
6) 66, 1095
7) 112, 266
8) 588, 616
