ACKNOWLEDGEMENTS

I am profoundly thankful to Allah for blessing me with the wisdom to complete the
endeavour in the form of a thesis.

I take this opportunity to thank Dr. S.M. Qaseem, Reader Department of
Botany, Shibli National P.G. College, Azamgarh, for suggesting the problem, valuable guidance,
unceasing encouragement and continued interest during the entire course of investigation.

Thanks are also due to Principal (Dr. Q.G. Alam) and Head, (Dr.
Qamruddin Farooqui) Department of Botany, Shibli National (P.G.) College, Azamgarh
for providing adequate facilities.

I wish to express my thanks to Dr.S.J. Ali, Reader Dept. of Botany, Shibli
National College, Azamgarh for his valuable advice from time to time during the investigation. I am
extremely thankful to Dr.Khalid Kafeel Khan, Reader, Dept. of Botany, Shibli National
P.G. College, Azamgarh for his criticism from time to time. I am also thankful to
Dr. Masood Akhtar, Dr. Ishtiaque Ahmad, Dr. M.Z. Beg for
their co-operation and helping attitude during the entire period of investigation.

A word of appreciation goes to Mr. Ozair Ahmad, computer centre, Shibli
National P.G. College, Azamgarh for co-operation in computer assistance.

I feel my duty to express my thank to Mr. Shekh Abdul Aziz Dept. of
Botany, S.N.P.G. College, Azamgarh for co-operation during the entire course of investigation.

The help from other member of the Dept. of Botany, S.N.P.G. College, Azamgarh
is also duly acknowledged.

All my friends have contributed in achieving this goal, for which I am highly
thankful.

In the last but not least, my sincere and hearty thanks to my parents and all family
members whose moral support and affection sustained me during the period of this research work

(MIRZA JAISH BEG)
