Acknowledgement

First and foremost, I would like to thank God from the core of my heart for constantly supplying me plethora of mental and physical energy to sustain and complete my doctoral research work and ultimately embodying it in the script called 'Thesis'. Though I am unable to see him but for me, he is the biggest source of encouragement to live a meaningful life.

I wish to express my deep sense of gratitude and respect to Dr. Susanta Sekhar Adhikari, my supervisor for giving me an ennobling privilege to work in his group and showing me different approaches to think and work in the light of his immense scientific knowledge, constructive criticism and of course with a lot of freedom. A special note of thanks to Prof. Amitabha Sarkar for empowering me to work in his group at IACS. I have also learned to recognize different colours of life while working in IACS, and that is because of his versatile, skilful, witty, perceptive and philosophical nature. I am indebted to Dr. Rajkumar Banerjee who ignited in me the love and interest for Medicinal Chemistry. I was blessed to have him as my research collaborator over the years. I take this opportunity to acknowledge the faculty members of this department (IACS), Prof. S. Lahiri, Prof. B. C. Ranu, Prof. S. Ghosh, Prof. S. C. Roy, Dr. S. Sinha, Dr. P. Dastidar, Dr. J. Dash, Dr. R. Goswami, and Dr. J. Guin for their kind help and valuable suggestions.

I express sincere and warm regards to all my teachers in school, college and university. I wish to show my feeling of thankfulness to my seniors, Debasis da, Sudeshna di, Anwesha di, Kona di, Amar da, Dipankar da, Piyali di, Raju da, Ansuman Da, Namata Di and Tuluma Di, for their guidance and assistance. A special thanks to Amar da for helping me in my research work. A note of thanks to Debajyoti, Avijit, Yousuf and Sumit for their help and company. I am thankful to Anirban Da for biological evaluation of synthesized compounds and also Biswajit da for staying besides me whenever I need him. It is a pleasure to thank all of my departmental colleagues for their kind cooperation and cheerful company. Words are incapable to express my feeling of thankfulness to my friends.

I take the opportunity of acknowledging Indian Association for the Cultivation of Science for providing me this platform to work on and also the Council of Scientific and Industrial Research (CSIR) for my fellowship.
No words are fulfilling enough when I try to express feelings of gratitude towards my parents. They are like the polestar in the entire voyage of my life. I am indebted to my mother, Smt. Kunkum Pal, whose perception towards life not only encouraged me to persevere with failures but also inculcated in me a deep sense of confidence. I adore my father, Sri Ashok Kumar Pal, whose idealistic and humble nature inspired me to move forward through thick and thin of life. It is their strive that has kept me motivated all along.

I have also been assisted and supported by many people over the years to whom I would like to express my heartfelt gratitude. My gratitude to all those people also, whose names I might have omitted unwillingly.

Abhishek Pal
