LIST OF GRAPHS

Graph 1 : Graphical representation of the problem focused coping score of three stress groups [High Stress (HS), Medium Stress (MS), Low Stress (LS)] 69

Graph 2 : Graphical representation of emotion focused coping scores of three stress groups [High Stress (HS), Medium Stress (MS), Low Stress (LS)] 69

Graph 3 : Graphical representation of the social support coping score of three stress groups [High Stress (HS), Medium Stress (MS), Low Stress (LS)] 70

Graph 4 : Graphical representation of the neuroticism score of three stress groups [High Stress (HS), Medium Stress (MS), Low Stress (LS)] 70

Graph 5 : Graphical representation of the agreeableness scores of three stress groups [High Stress (HS), Medium Stress (MS), Low Stress (LS)] 71

Graph 6 : Graphical representation of the openness scores of three stress groups [High Stress (HS), Medium Stress (MS), Low Stress (LS)] 71

Graph 7 : Graphical representation of the consciousness score of three stress groups [High Stress (HS), Medium Stress (MS), Low Stress (LS)] 72

Graph 8 : Graphical representation of the social adjustment scores of three stress groups [High Stress (HS), Medium Stress (MS), Low Stress (LS)] 72

Graph 9 : Graphical representation of the emotional adjustment score of three stress groups [High Stress (HS), Medium Stress (MS), Low Stress (LS)] 73

Graph 10 : Graphical representation of the educational adjustment scores of three stress groups [High Stress (HS), Medium Stress (MS), Low Stress (LS)] 73

Graph 11 : Graphical representation of the SCLESCS scores of three coping groups [HE, ME, LE] 77

Graph 12 : Graphical representation of the emotional focused scores of three coping groups [HE, ME, LE] 77

Graph 13 : Graphical representation of the social support scores of three coping groups [HE, ME, LE] 78

Graph 14 : Graphical representation of the neuroticism scores of three coping groups [HE, ME, LE] 78
Graph 15: Graphical representation of the agreeable scores of three coping groups [HE, ME, LE]  
Graph 16: Graphical representation of the openness scores of three coping groups [HE, ME, LE]  
Graph 17: Graphical representation of the conscientiousness scores of three coping groups [HE, ME, LE]  
Graph 18: Graphical representation of the home adjustment scores of three coping groups [HE, ME, LE]  
Graph 19: Graphical representation of the health adjustment scores of three coping groups [HE, ME, LE]  
Graph 20: Graphical representation of the social adjustment scores of three coping groups [HE, ME, LE]  
Graph 21: Graphical representation of the emotional adjustment scores of three coping groups [HE, ME, LE]  
Graph 22: Graphical representation of the educational adjustment scores of three coping groups [HE, ME, LE]  
Graph 23: Graphical representation of the SLESCS scores of Resilient and Non-resilient groups  
Graph 24: Graphical representation of the problem focused coping scores of Resilient and Non-resilient groups  
Graph 25: Graphical representation of the emotion focused coping scores of Resilient and Non-resilient groups  
Graph 26: Graphical representation of the social support coping scores of Resilient and Non-resilient groups  
Graph 27: Graphical representation of the agreeableness scores of Resilient and Non-resilient groups  
Graph 28: Graphical representation of the conscientiousness scores of Resilient and Non-resilient groups  
Graph 29: Graphical representation of the home adjustment scores of Resilient and Non-resilient groups
Graph 30 : Graphical representation of the health adjustment scores of Resilient and Non-resilient groups  
Graph 31 : Graphical representation of the social adjustment scores of Resilient and Non-resilient groups  
Graph 32 : Graphical representation of the emotional adjustment scores of Resilient and Non-resilient groups  
Graph 33 : Graphical representation of the educational adjustment scores of Resilient and Non-resilient groups  
Graph 34 : Graphical representation of the emotion focused coping scores of male and female groups of subject  
Graph 35 : Graphical representation of the neuroticism scores of male and female groups of subject  
Graph 36 : Graphical representation of the extraversion scores of male and female group of subject  
Graph 37 : Graphical representation of the agreeableness scores of male and female groups of subject  
Graph 38 : Graphical representation of the openness scores of male and female groups of subject  
Graph 39 : Graphical representation of the conscientiousness scores of male and female groups of subject  
Graph 40 : Graphical representation of the home adjustment scores of male and female groups of subject  
Graph 41 : Graphical representation of the health adjustment scores of male and female groups of subject  
Graph 42 : Graphical representation of the social adjustment scores of male and female groups of subject  
Graph 43 : Graphical representation of the emotional adjustment scores of male and female groups of subject
