# Contents

CHAPTER 1: Introduction ......................................................... 1-6
   1.1 Background of the study .............................................. 1
   1.2 Definition of the Terms .................................................. 3
   1.3 The Research Gap .......................................................... 4
   1.4 Organization of the Study ............................................... 5

CHAPTER 2: Review Of Literature .......................................... 7-83
   2.1 Culture in the Society ..................................................... 7
      2.1.1 Concept of Culture ..................................................... 7
      2.1.2 Structure and components of Culture: (Elements of Culture) .. 10
      2.1.3 The Model of Culture .................................................. 17
      2.1.4 Dimensions of Culture for the Study .............................. 17
      2.1.5 Other dimensions of culture Found in Literature ............... 25
         2.1.5.1 Dimensions of culture: Theory Based ......................... 25
         2.1.5.2 Dimensions of culture: Empirical .............................. 27
      2.1.6 Summary ................................................................. 28
   2.2 Organizational Culture .................................................. 29
      2.2.1 Development of the Concept of Organizational Culture ....... 29
      2.2.2 Empirical Studies of Organizational Culture .................. 41
         2.2.2.1 The Role of Quantitative Measurement ....................... 42
         2.2.2.2 Classification of Survey Measures of Organizational Culture .. 43
         2.2.2.3 Literature Review and comparison of Survey measures ...... 45
         2.2.2.4 Instruments measuring patterns of behaviour ............... 46
         2.2.2.5 Instruments measuring values and beliefs .................. 47
      2.2.3 Dimensions of Organizational Culture .......................... 51
      2.2.4 Selected Dimensions of Organizational Culture ............... 52
      2.2.5 Summary ................................................................. 53
   2.3 Organizational Climate .................................................. 54
      2.3.1 Climate as the Property of the Organization ................. 54
      2.3.2 Climate as the Property of the Individual ................... 59
      2.3.3 The Factors Determining Climate ................................. 63
      2.3.4 Communication of Climate .......................................... 72
      2.3.5 Dimensions of Climate for the Present Study .................. 75
      2.3.6 Summary ................................................................. 76
   2.4 Organizational Culture and Organizational Climate .............. 77
      2.4.1 The Relationship between Climate and Culture Concept ....... 77
      2.4.2 The Distinction between the two constructs ................... 79
      2.4.3 Rationale for the Comparative Research of Two Concepts ....... 82
      2.4.4 Summary ................................................................. 82

Chapter: 3 Methodology ......................................................... 84-100
   3.1 Research Objectives ..................................................... 84
   3.2 Research Design .......................................................... 85
      3.2.1 Development of the Conceptual Framework ...................... 86
      3.2.2 Development of the Instruments ................................... 87
      3.2.3 Sample ................................................................. 88
      3.2.4 Measurement .......................................................... 89
   3.3 Validity and Reliability ................................................ 89
