ACKNOWLEDGEMENT

While working in Sassoon General Hospitals, Pune as a Linen Keeper, I came across lots of poor patients who were in need of help and guidance. These poor patients inspired me to take up the course of social work. There was a post of Medical Social Worker at Sassoon General Hospitals, Pune, which was vacant for want of a Trained Medical Social Worker.

So I owe my sincere gratitude to the Tata Institute of Social Sciences, Bombay, specially Dr. (Miss) Gauri Rani Banerjee, Head, Department of Medical & Psychiatric Social Work, who selected me for this training and also wish to place on record my sincere thanks to Miss Akhtar Ahmed, Medical Social Worker who was my Field Work Supervisor at St. George’s Hospital, Bombay, during training. Her able guidance and rightful training helped me to establish myself as first Medical Social Worker in a Government Hospital. I also express my gratitude to the Surgeon General, Bombay who permitted me to join the course and granted me two years’ leave for undergoing the training at the Tata Institute.
I owe my sincere gratitude to my research guide Dr. Sunanda Koushik who not only encouraged me to take up this study, but also supported me with her insightful guidance right from the stage of conception of research design to the completion of research study.

I express my thanks to Dr. F. J. Mendonca and Dr. V. G. Ganla, Ex. Deans of Sassoon Hospitals, Pune, who had full faith in me and who gave me free hand in the development of Medical Social Work in the Hospital. Without their co-operation, I would not have been able to become successful as Medical Social Worker.

I express my thanks to Thermax Ltd., Chinchwad, who invited me to work as Consultant in the Welfare activities of Thermax Ltd. after my retirement in 1985 from Govt. service. I am still working at Thermax and I am very happy to say that I get full co-operation and respect from the management and workers and added a new dimension of social work in industry.

My sincere thanks to Dr. R. D. Naik, Head, Dept. of Social Work Research, Tata Institute for facilitating computer data processing and for giving I.C.S.S.R. (Indian Council of Social Service
Research) grant for the purpose. I also thank Mrs. Padmini Ruikar for typing this thesis in a very short time.

Last but not the least, I express my heartfelt and respectful thanks to all my patients from Sassoon Hospitals, Pune, Yeravada Mental Hospital, Kondhva Leprosy Hospital, Sanjivan Hospital, Seva Sadan Dilasa Karyashala for mentally challenged adults (male and female), Muktangan De-addiction Centre, M.I.M.H. Pune. I assure them that their contribution in conducting this study will definitely go a long way in turning a new, bright page in the history of Medical and Psychiatric Social Work.
