Chapter 9

Scope For Further Work
9. SCOPE FOR FURTHER WORK

Kayakarpam formulations can be further developed as a combination of all plants as Poly herbal formulation and processing in Amuri and Muppu.

The individual active constituents to be isolated for the respective pharmacological activities. More importantly the plants and their therapeutic formulations in siddha with special reference to Siddha Kayalarpam can be taken up for scientific validity and also to build up and develop viable formulations for better healthcare.
