ACKNOWLEDGEMENTS

I never quite expected that doing a PhD would turn out to be such an intimidating task. Had it not been for the guidance and support from many, this effort might not have seen fruition. First and foremost, I am indebted to my supervisor Dr. Chanderdeep Tandon for his untiring support and guidance throughout my entire candidature. His valuable advice in performing the laboratory work and publishing the research papers proved to be very vital in shaping the course of it. Further, his critical comments and suggestions on various aspects of the thesis have definitely improved the quality of this work. His positive attitude always inspired me in doing my research work consistently. The blessing, help and guidance given by him time to time shall carry me a long way in the journey of life on which I am about to embark.

I would like to express my special thanks of gratitude to Dr. Simran Tandon for teaching me Animal tissue culture work and for her guidance and constant supervision as well as for providing necessary information regarding the research.

I also thank my co-supervisor Dr. S. K. Singh of Urology Department, Post Graduate Institute of Medical Education and research, Chandigarh not only for providing me the extensive medical knowledge required but also for providing the kidney stones.

My earnest gratitude to Hon’ble COO of Jaypee University of Information Technology, Dr. Yajalu Medury for providing mean opportunity of pursuing PhD from this University. I am thankful to him for providing me the lab infrastructure and teaching assistantship.

I learnt a lot about the bioinformatics from Dr. Pradeep Naik whose knowledge in this area is astounding. I would like to thank him for the much-valued technical advice he has rendered during our numerous discussions. I also thank the HOD, Biotechnology and
Bioinformatics Dr. R.S. Chauhan for distinct ability to maintain cordial environment in the department.

I take this opportunity to express my profound gratitude and deep regards to Dr. Priyadarshini Pathak for her kind co-operation and encouragement and for willingly helping me out with her abilities.

Further, I would like to thank my friend Amit Sud whose timely and most willing help as well as support was very crucial for me. Thanks to my seniors and colleagues for good feedback on research issues or simply for providing good atmosphere: Seneha Santoshi Bharti, Alisha, Shipra, Amisha, Richa, Shifa, Charu. Working with you all has been a cherishable journey. I would also like to thank the laboratory staff of BT & BI Department, JUIT. I would like to thank Director, National Institute of Pharmaceutical Education and Research (NIPER), SAS Nagar, India for MALDI-TOF MS.

Family support had been very crucial for me in this effort. Thanks to my parents and sister who have been the driving force behind this pursuit and for their constant encouragement. They have been a constant pillar of support during this trying period and without whom this work would have been impossible.

To all acknowledged I solemnly owe this work.
