Acknowledgements

All the praises and thanks to "The One Universal Being", who inspires entire humanity towards knowledge, truth and eternal commendation. He blessed me with strength and required passionate ardour to overcome the entire obstacles in the way of this toilsome journey.

It is extremely difficult to express my heartfelt gratitude in words to my reverend supervisor Prof. Wajid Husain Ansari, Dept. of Chemistry, A.M.U., Aligarh, who has been a constant source of knowledge, wisdom and encouragement. It is the matter of great privilege for me to accord my most profound gratitude and indebtedness to him.

Words are inadequate to express my gratitude to Prof. Kabir-ud-Din, UGC – BSR, Faculty Fellow (Formerly: UGC Emeritus Fellow), Dept. of Chemistry, A.M.U., Aligarh, who introduced me with the problem and provided help at every moment of need. He has been a source of inspiration for me. His commitment to research, punctuality, integrity and probity has made him a role model for me.

Sincere thanks are extended to the Chairman, Dept. of Chemistry, A.M.U., Aligarh for providing necessary research facilities.

I extend my sincere thanks to Dr. Mohd. Akram, Dept. of Chemistry, A.M.U., Aligarh for his kindness, support and valuable suggestions at every stage of my research, without which I could not have been able to complete this work.

I am deeply indebted to Dr. Iqar Ahmad Khan & Prof. M. Mushfiq, Dept. of Chemistry, A.M.U., Aligarh for his kindness and support.

I also take this opportunity to express my sincere gratitude to Dr. Andleeb Zehra Naqvi & Dr. Manorma Panda for their willing help and guidance during different stages of my work.

I want to especially mention the name of Dr. Umme Salma Siddiqui for her valuable suggestions, comments and encouragement throughout this work which
have helped me in improving the quality of this work and with whom, in many conversations and discussions I learned a good deal of chemistry too.

Loving thanks and best wishes to my laboratory colleagues and seniors Dr. Abbud Bashar Khan, Dr. Aimal Koya, Dr. Farah Khan, Dr. Ahmad Jahan Khanam, Dr. Malik Abdul Ruh, Ms. Nazish Fatma, Ms. Sakar Noori, Ms. Kakhkash Anjum, Mr. Dileep Kumar, Mr. Gaurav Sharma, Mr. Gamal Ahmad, Mr. Adel Ahmad & Mr. Imtiyaz Ahmad Bhat for providing me enthusiastic environment during the progress of this work.

I am thankful to all of my friends Dr. Sheeba Khan, Dr. Benazir Zia, Dr. Nazia Iqbal, Ms. Sabreena Yousuf, Ms. Saleha Beg, Dr. Zafar Iqbal, Ms. Saman Zahra, & Mr. Zubair Ahmad Dar for their day-to-day help and valuable suggestions.

Words cannot express my deepest gratitude to my parents, brothers (Zubair Aslam & Zaived Aslam) and sisters (Afroz Aslam, Ruby Aslam & Shaheen Aslam) for their love, patience, support and sacrifices, which is vested on every page of this study and is pivotal in the completion of this task. They always stood behind me during all sweet and sour moments of my life and became a source of inspiration. Whenever I get tired and desperate, I found them ready to provide me courage and consolation. Thank you Ammi & Papa for showing faith in me and giving me liberty to choose what I desired.

In the last but not the least I express my deep sense of gratitude from the core of my heart to all my well wishers for their cooperation and support.

Financial support by University Grants Commission, New Delhi as research fellow during my Ph.D. programme is gratefully acknowledged.
