ACKNOWLEDGEMENT

Foremost, I would like to express my sincere gratitude to my supervisor Dr.S.Arumugam, Professor, Department of Computer Science and Engineering, Nandha Engineering College for the continuous support of my Ph.D. study and research, for his patience, motivation, enthusiasm and immense knowledge. He has been my backbone for doing this Ph.D work and writing this thesis work. He is the best mentor as well as a good advisor.

I am grateful to the Management of Nandha Educational Institutions for providing necessary facilities to accomplish the work. I would like to thank the other members of my committee, Dr.K.Baskaran, Professor, Department of Computer Science and Engineering, Government College of Technology and Dr.S.Chenthur Pandian, Principal, SNS College of Technology for the assistance they provided at all levels of the research project.

I must also acknowledge to the Principal and the Head of the Department of Computer Science and Engineering and all the faculty members of Nandha Engineering College, for providing essential amenities to complete the work. Finally, I thank my parents, for supporting me throughout all my studies and I must acknowledge my better half without whose love, I would not have finished this thesis. I am very much thankful to God for his abundant blessings and love throughout my life.

CHANDRASEKAR.A
