## 1. INTRODUCTION

1.1 Introduction

1.2 Statement of the Problem

1.3 An Overview of Literature

1.3.1 Conceptualizing Groundwater as a Resource

1.3.2 Reasons for Development of Groundwater Irrigation

1.3.3 Decline in Groundwater Tables

1.3.4 Reasons of Depletion of Groundwater

1.3.5 Externalities Arising out of Groundwater Depletion

1.3.6 Role Groundwater Markets in Reducing Inequality to Access to Groundwater Irrigation

1.3.7 Issues on Property Rights of Groundwater

1.3.8 Farmers' Perceptions and Policy Implications of Depleting Groundwater

1.3.9 Emerging Issues

1.4 Objectives of the Study and Research Questions

1.5 Framework of Analysis

1.6 Methodology

1.6.1 Time Frame and Aggregation of Spatial Units

1.6.2 Primary Surveys and Sample Design

1.6.3 Focus Group Discussions

1.6.4 Statistical Techniques

1.7 Data Base

1.8 Geographical Personality of the Study Area

1.9 Organization of the Study
2. CHANGING IRRIGATION STRUCTURE AND SHIFTS IN CROPPING PATTERN

2.1 Extent and Intensity of Irrigation in Punjab

2.2 Extent and Intensity of Irrigation in Punjab: District Level Analysis

2.3 Changing Irrigation Structure in the State of Punjab

2.4 Changing Irrigation Structure in Punjab – District Level Analysis

2.5 Cropping Pattern Shifts in Punjab

2.6 Degree of Crop Specialization in Punjab

2.7 Shifts towards Wheat–Rice Crop Combination: Analysis of Area under Rice and Wheat in Punjab

2.8 Shift towards Wheat–Rice Crop Combination: Analysis of Decline in Area under Course Cereals, Pulses and Oilseeds

2.9 Area under Cotton and Sugarcane

2.10 Changing Water Demand in Agriculture

2.11 Interrelationship between Increasing Demands of Irrigation Water and Increase in Groundwater Irrigation

3. GROUNDWATER AVAILABILITY AND ITS EXPLOITATION

3.1 Availability and Use of Groundwater at the National Level

3.2 Availability and Use of Groundwater in Punjab

3.3 Availability and Use of Groundwater in the District of Amritsar

3.4 Extent of Groundwater Over-exploitation

3.5 The Causes of Groundwater Over-Exploitation

4. GROUNDWATER DEPLETION AND PROFITABILITY OF AGRICULTURE

4.1 Relative Profitability of Agriculture across Different Irrigation Systems

4.1.1 Comparative Analysis of Profitability of Wheat and Rice Cultivation in Different Irrigation Systems

4.1.2 Comparative Analysis of Profitability of Different Crop Combinations in Different Irrigation Systems

4.2 Relative Profitability of Agriculture across Different Landholding Groups

4.2.1 Comparative Analysis of Profitability of Rice and Wheat in Different Irrigation Systems across Different Landholding Groups
5. ISSUES RELATED TO ACCESSIBILITY TO DEPLETING GROUNDWATER RESOURCE FOR IRRIGATION

5.1 Determinants of Groundwater Accessibility

5.1.1 Groundwater Ownership

5.1.2 Tube-well Economy and Groundwater Ownership

5.1.3 Land Ownership and Accessibility to Groundwater

5.1.4 Ownership of Wells and Access to Groundwater

5.1.5 Nature of Ownership of Wells and Access to Groundwater

5.1.6 Spacing of Wells and Groundwater Accessibility

5.2 Groundwater Utilization

5.2.1 Groundwater Irrigation and its Utilization

5.2.2 Cropping Pattern and Groundwater Utilization

5.3 Electricity Subsidy and Groundwater Accessibility

5.4 Access to Market Subsidies and Groundwater Accessibility

5.5 Equity to Groundwater Irrigation Accessibility

6 GROUNDWATER MARKETS AND ITS IMPLICATIONS ON ACCESS TO GROUNDWATER IRRIGATION

6.1 Groundwater Markets Defined

6.2 Structure of Groundwater Markets

6.3 Reasons for buying and selling of Groundwater for Irrigation

6.4 Terms of Water Transactions and Modes of Functioning of Groundwater Markets

6.5 Social Institutions and Dynamics of Water Buying and Selling

6.6 Evolution of Groundwater Markets

6.7 Groundwater Market Development and Agrarian Change

6.8 Impact of Groundwater Markets on Accessibility to Groundwater Irrigation

6.8.1 Cropping Pattern

6.8.2 Groundwater Markets and Yield Realisation

6.8.3 Costs and Returns from Crops

6.9 Groundwater Markets and Electricity Subsidisation

6.10 Groundwater Markets and Accessibility of Groundwater Irrigation
7 FARMERS' PERCEPTION AND RESPONSE TO GROUNDWATER DEPLETION

7.1 Farmers’ Decisions on the Cropping Pattern 240
7.2 Farmers’ Attitude towards Tube-well Interference 248
7.3 Farmers’ Reaction to Electricity Subsidy 250
7.4 Coping Strategies Adopted and Be Adopted in Future by the Farmers 260
7.5 Farmers’ Suggestions to Groundwater Regulation 263

8 CONCLUSIONS AND POLICY IMPLICATIONS 266

8.1 Summary and Conclusion 267
8.2 Conclusions and Policy Implications 274
8.3 Research Gaps and Future Directions 280

Bibliography 282
Appendices 291
