ACKNOWLEDGEMENTS

Writing a thesis of this kind is not simply an individual act; in fact, I am indebted to many people who have made significant contribution in the making of this accomplishment. First of all, I remain sincerely grateful to my supervisor Dr. Arun Mohanty, the director of this act- for his honest and assiduous guidance and inexorable cooperation. Words are too poor to express my heartfelt fullness to him whose devotion to learning has always inspired, encouraged and helped me in my academic pursuit.

My family has been bedrock of all my career pursuits that I have undertaken so far. This dissertation could not have been possible without the constant support of my family members. My parents always encouraged me to pursue my career in higher studies. My beloved mother always inspired me to face challenges in life. She is my first teacher, who always taught me to become a person with philanthropic attitude. Her continuous support inspired me to do the research work. Without her support, I could not have pursued my Ph.D. The leadership quality and teachable attitude of my father always inspire me to grow myself as a person with positive attitude. Though, they are not with me, I always follow their guidance in my life. I am grateful to my sister Lipi, brother Muna, Silu, my uncle (Paku Dada), Khudi, Chati for their support during the crucial phase of my life.
