Acknowledgment

The author would like to take this opportunity to humbly express his gratitude for the innumerable gestures of help, co-operation and inspiration that he has received from his teachers, elders, friends and well wishers during this course of work.

The author expresses his sincere appreciation and deep gratitude to his esteemed guide Prof. Sivaji Chakravorti for his invaluable guidance and advice in carrying out the thesis work. He has been the person to instill in me a sense of commitment, dedication, perfection and optimism. The author is highly obliged to his excellent guidance, endless encouragements, unique co-operation extended to him, right from the time of onset of this colossal task till its successful completion. The author was allowed to have necessary freedom during his work and at the same time intense supervision by the supervisor had guided the work towards perfection.

The author expresses his deep sense of gratitude to the HOD, Electrical Engineering Department, Jadavpur University, for his kind accordance in providing the necessary laboratory facilities for implementation of this work.

It is the author’s pleasure to express his sincere gratitude to his respected teachers, Prof. Abhijit Mukherjee and Prof. Kesab Bhattacharya, for their spontaneous advice, encouragements and help in carrying out this research work.

The author is thankful to some other distinguished researchers and colleagues, Dr. Biswendu Chatterjee, Dr. Debangshu Dey and Sri Sovan Dalai, who have mentored him over the years.

The author would like to express his heart-felt gratitude to his wife Mrs. R.Neelambari, parents Mr. S.Poomalai and Mrs. P.Palaniyammal, brothers Mr.P.Poomalai Raja and Mr. S.Muthuselvam, and relatives for their never-ending support and encouragement in carrying out the work. Last but not the least, the author thank almighty god for all blessings.
