CHAPTER 1
INTRODUCTION........................................................................................................1
1.1 Overview.........................................................................................................1
1.2 Mutual Fund as An Investment option.......................................................2
1.3 Need for Understanding Mutual Funds......................................................4
1.4 Mutual Funds- Characteristics, Growth and Trend......................................6
   1.4.1 Characteristics of Mutual Funds............................................................7
   1.4.2 Mutual Fund Scenario Globally............................................................8
   1.4.3 Capital Inflows to Emerging Markets..................................................9
   1.4.4 Mutual Fund Scenario in India............................................................12
1.5 investment decision making........................................................................16
1.6 Summary of results of mutual fund industry publications........................18
   1.6.1 Non tax incentive amendments and proposals....................................19
   1.6.2 Financial inclusion................................................................................19
1.7 Barriers and opportunities...........................................................................19
1.8 The present study.........................................................................................21
1.9 Organisation of the thesis............................................................................21
1.10 Summary of the chapter.............................................................................22

CHAPTER 2
LITERATURE REVIEW..........................................................................................23
2.1 Reviews Regarding Savings attitude Behavior...........................................23
2.2 Studies Regarding Risk Behavior...............................................................25
2.3 Studies Regarding Performance of Mutual Funds.......................................29
2.4 Reviews Regarding Importance of Brain dominance..................................31
2.5 Reviews Regarding Investors Attitude towards Mutual Fund.....................32
2.6 Outcome of Various Studies

2.6.1 Reviews regarding Savings Attitude Behavior

2.6.2 Studies regarding Risk Behavior

2.6.3 Studies regarding Performance of Mutual Funds

2.6.4 Reviews regarding Importance of Brain Dominance

2.6.5 Investor’s Attitude towards Mutual Fund

2.6.6 Research gaps identified

2.7 Review and Theoretical Background of Brain Theory

2.7.1 Brain Decisions - Risk as Feelings

2.8 Evolution of Brain Dominance theory

2.9 Specialization of the Two Hemispheres of the Brain

2.10 Left Brain versus Right Brain

2.11 Concept of Attitude

2.12 Concept of Attitude towards Investment

2.13 Research Gap

2.14 Summary of the Chapter

CHAPTER 3

RESEARCH METHODOLOGY

3.1 Statement of the Problem

3.2 Research Method

3.3 The Methodology Adopted

3.3.1 Risk free Rate ($R_f$)

3.4 Objectives of the Research

3.5 Hypothesis

3.6 Sources of data

3.7 Sampling frame

3.8 Sample size for mutual Fund Analysis

3.8.1 Sample Method

3.9 Research Tool for Data Collection

3.9.1 Tool development

3.9.2 Brain dominance test tool

3.10 Pretesting of Research Tool

3.11 Analysis of Primary Data
CHAPTER 4
ANALYSIS OF THE PERFORMANCE OF MUTUAL FUNDS .......................61
4.1 Analysis of the Performance of mid and Small cap equity mutual funds ...............62
4.2 Findings of mid and Small Cap funds for five year ...........................................116
  4.2.1 Good risk Reward Ratio .............................................................................116
  4.2.2 Moderate Risk Reward ratio .....................................................................117
4.3 analysis of the performance of large cap mutual funds .......................................117
4.4 Findings of large-cap Funds for Five year ..........................................................169
  4.4.1 Good risk Reward Ratio .............................................................................170
4.5 Outcome of the First Research Objective ............................................................171
4.6 Findings of the study – Large cap Funds ............................................................173
4.7 Contribution of the Research ............................................................................176
4.8 Summary of the chapter ....................................................................................177

CHAPTER 5
ANALYSIS OF INVESTOR ATTITUDE TOWARDS EQUITY MUTUAL FUND
INVESTMENTS USING LEFT – RIGHT BRAIN CONCEPT .......................178
5.1 Respondents profile .........................................................................................178
5.2 Descriptive statistics .......................................................................................200
5.3 Brain dominance statistics .............................................................................202
5.4 Brain dominance and its relationship with investors demographic profile ............204
5.5 findings from relationship between brain dominance and investor’s demographic profile ........................................................................................................212
5.6 Factor analysis to find the critical factors for investing in equity mutual funds ......214
5.7 Relationship between demographic profile, left-right brain dominance and critical factor of decision making – an analysis ..................................................219
5.8 Result of hypothesis 1 .....................................................................................223
5.9 The second hypothesis is examined .................................................................223
5.10 Hypotheses accepted or rejected with Respect to various Statements in
relationship to Brain dominance .........................................................231
5.11 The third hypothesis is examined ..................................................232
5.12 Findings of Hypotheses testing ......................................................234

CHAPTER 6
FINDINGS, CONCLUSIONS AND RECOMMENDATIONS .........................236
6.1 Findings from the evaluation of Performance of mutual funds .................236
6.2 Conclusion on Performance of Mutual Funds ...................................240
6.3 Findings of the study – Large cap funds ..........................................241
6.4 Findings from the analysis of Investor attitude Towards Equity mutual
Fund investments using left-right brain concept ....................................245
6.5 Conclusion of the research ...............................................................250
6.6 Recommendations .................................................................252
6.7 Future research directions .............................................................254
