ACKNOWLEDGEMENT

This work would never have materialized without the contribution of many people to whom I have the pleasure of expressing my appreciation and gratitude. I would like to use the first opportunity to express my sincere and deepest gratefulness to my supervisor and promoter, Prof. Dr. T. Senthivel, Dean who gave me opportunity to be a PhD scholar of the GRI and to work and explore the problem of Irrigation water management in Rwanda and also to enjoy the opportunity to live and experience the education of GRI. Thanks for trusting me, for your intellectual support, for your critical review of the thesis, for your patience and for your many pieces of advice at long distance. And thanks for your enthusiasm and interest in my work, as you came to Rwanda two times for research guidance. His visit to Rwanda amid my fieldwork also gave me the opportunity to revise and improve my data collection. His continued willingness to listen and discuss the study helped me to produce this dissertation in an appropriate way.

I would like to thank my promoter Prof. Dr. Antoni Joseph Rayar whose intellectual advice, guidance, encouragement and regular discussions were very valuable and inspiring in the process of the proposal writing, research undertaking and thesis writing.

I acknowledge Higher Institute of Agriculture and Animal husbandry, for the financial and logistical contribution to the research. Also, I would like to thank the Gandhigram Rural Institute for academic support.

I am very grateful to the Prof. Dr. S. Mahendran (Late), Professor of Agronomy, Agriculture College and research Institute, TNAU, Madurai and Dr. B.J. Pandian Professor of Agronomy Water Technology Centre, Tamilnadu Agricultural University (TNAU), Coimbatore for acting as Irrigation water management experts and for their cooperation and support to carry out my thesis. Also, I would like to thank Prof. Kalisa Mbanda former Rector, ISAE, Dr. Karemango Charles, Rector of ISAE and Dr. Juvenal, former Vice Rector of ISAE for their guidance and support while I conduct field research in ISAE farm at Rubirizi.
I would like to thank all the staff of Department of Soil and Water management, ISAE, Rwanda. Special words of thanks go to Prof. Dr. Ravi raj, Water technology Centre, TNAIJ, my classmate who helped me to identify GRI for PhD admission. Thanks for your friendship and for all your help until now.

The assistance of the academic staff and Administration and Finance Services of ISAE, were very vital for the successful completion of my fieldwork. I also acknowledge farm manager, farm supervisor, field assistants, and technicians for their contribution. I thank all my students who participated in the research work from 2007 to 2009 and supported the field work. Also, thanks to the people who work at the Soil Analysis Laboratory of ISAE.

Last but not least, I would like to express my deepest appreciation to my Mother, Father, Wife and Children for their care and love.

Kannan Narayanan
