ACKNOWLEDGEMENT

I am in large measure indebted to my supervisor, Dr. K.M. Guru, Ph.D., Professor, School of Life Sciences, Sambalpur University, who provided the original impetus for conducting research in the field of Forest microbial ecology. I am, in deed, grateful to him for constant guidance and supervision which enabled me to complete my work.

I proffer my profound indebtedness and gratitude to Dr. Niranjan Behera, Reader, School of Life Sciences, who, in spite of his many other commitments and pre-occupations and at much personal inconvenience, agreed to my request to give his invaluable suggestions and guidance at every stage of the work. I am extremely thankful to him for his patience, unfailing support, true interest and sympathy.

I must acknowledge the generous help rendered by the Head of the Department, School of Life Sciences who provided necessary facilities to conduct research work in the department laboratory. Simultaneously, I express my sincere thanks to all other faculty members of School of Life Sciences, for their moral support and good will.

My special thanks are due to Dr. P.C. Mishra, Head of the Dept. of Environmental Sciences, Sambalpur University for his timely valuable suggestions and encouragement.

My heart-felt thanks to Dr. H.P. Nanda, my esteemed teacher and Head, Department of Botany, G.M. College (Auto.), Sambalpur for providing official and administrative assistance during the course of the work. I also extend my sincere thanks to my colleagues in the P.G. Dept. of Botany for their encouragement and co-operation in carrying out my duties in the department.

I feel indebted to Dr. R.P. Thakre, Prof. and Head, Department of Microbiology, Nagpur University, and his staff for their sincere co-operation and
help in identification and confirmation of my findings of fungal culture at the laboratory. I have freely availed of the facilities offered by the department.

I acknowledge with gratitude my debt to Sri A.N. Nath, I.F.S. Retd. Conservator of Forests, Sri Jude Sekhar, I.F.S. and his staff for their timely assistance in conducting vegetational survey and providing me with necessary forest literature.

Sri S.K. Nath, J.E. and his staff members, Department of Soil Conservation, Kuchinda helped in procuring the topographic map and relevant records. I am indeed, grateful to them.

I am extremely thankful to the authority and staff of Central Research Station, Hirakud, for supplying meteorological data.

I owe my gratitude to Dr. J.M.L. Gulati, Senior Scientist, Agronomy, RRTTS, Chiplima (OUAT) for providing me books and journals. I also thank Sri M.M. Mishra, A.A.O., Sambalpur, Sri B.B. Panigrahi, Soil Chemist and Sri M.N. Padhee for their ungrudging help in providing necessary laboratory facility to carryout the research testing.

I offer my appreciation and thanks to Dr. H.P. Dani, Dr. S. Basu, Dr. U. Sahani, Sasmita and Rashmi for their good will and encouragement during the course of the research.

A special word of thanks is also due, to Sri Swadesh Kumar Panda for the neat photographs of the forest sites.

I gratefully acknowledge the financial support rendered by the U.G.C., New Delhi, in form of a minor research grant.
I thank Sri S.K. Padhi and Sri P.K. Pattnaik for their sincere efforts, great pains and meticulous care which they have accomplished in their job of computerised typing.

It would be remiss if I did not acknowledge my debt to Prashant, Sunil, Akshay and my daughters Soumya and Surabhi for their patience, tolerance and cooperation.

My husband, Prof. M.P. Nayak has helped me at every stage of the work and he will, I hope accept it as an apology for long hours of silence.

Date 19-4-2000.
