ACKNOWLEDGEMENT

I express my profound sense of gratitude and indebtedness to Prof. B.B. Deo for his patient guidance and constant inspiration throughout the course of this work. His lucid manner of teaching and elegant ways of solving complicated mathematical problems have helped me in understanding many aspects of Physics.

I thank Prof. M.L. Scott for providing me some of the detailed experimental data used for this work. I also thank Prof. T. Pradhan for extending Library facilities to me at the Institute of Physics, Bhubaneswar.

I acknowledge benefits from the teachings of Prof. B.B. Deo and Dr. (Mrs.) M. Satpathy during the M. Phil course work. I am greatly indebted to the faculty members of the Physics Department, Utkal University for rendering their kind and helpful suggestions on many occasions.

I am extremely grateful to Dr. J.K. Mohapatra, Dr. N. Barik and Dr. A.K. Bisoi who have generously given their time for many valuable discussions.

I shall always cherish the pleasant and memorable association with my colleague teacher fellows and research scholars who have provided an excellent atmosphere to work in.
I am extremely thankful to the personnel of Computer Centre, Utkal University for their timely co-operation and immense help in the computation work. My sincere thanks are due to Mr. N. Nayak who has taken great care and patiently typed the thesis.

My personal and most sincere thanks go to my husband and two kids Devi and Marut for their understanding and co-operation. Thanks are also due to all my friends and relatives who have come forward to help me whenever I have been strained.

Finally, I must acknowledge the financial support given by University Grants Commission of India under the Faculty Improvement Programme.
