

TABLE OF CONTENTS

	TITLE	PAGE NO.
CHAPTER 1	INTRODUCTION	1
	1.2. REVIEW OF LITERATURE	4
	1.2.1. Discovery of Tuberculosis bacilli	4
	1.2.2. Global Situation and Epidemiology of tuberculosis	4
	1.2.3. Structure and properties of <i>M. tuberculosis</i>	6
	1.2.4. Chemotherapy	7
	1.2.4.1 Drug resistance in tuberculosis	9
	1.2.5 Detection of <i>M. tuberculosis</i> in clinical samples	11
	1.2.5.1 Microscopy	12
	1.2.5.2 Culture	14
	1.2.5.3 Diagnosis based on structural components	15
	1.2.5.4 Serodiagnosis of tuberculosis	16
	1.2.5.5 Diagnosis based on nucleic acid	18
	1.2.6 Pathogenesis	23
	1.2.7 Replication and persistence in macrophages of <i>M. tuberculosis</i>	25
	1.2.8 Prophylaxis	27
	1.2.9 Genomics of mycobacteria	31
	1.3. Aims and Objectives	34
CHAPTER 2	MATERIALS AND METHODS	
	2.1. Reagents and chemicals	35
	2.2. Bacterial strains	35
	2.3. Culture Media	35
	2.4. Antibiotics	36
	2.5. Growth conditions	36
	2.6. Storage of cultures	36
	2.7. Adenosine deaminase assay	36
	2.8. Processing of clinical samples	39
	2.9. Auramine Rhodamine staining	39
	2.10. Growth of <i>M. tuberculosis</i> from clinical specimen	41
	2.11. Isolation and purification of nucleic acid	43
	2.12. Agarose gel electrophoresis	44

	TITLE	PAGE NO.
	2.13. Polymerase Chain Reaction (PCR)	45
	2.14. Purification of PCR product for cloning	48
	2.15. Automated DNA sequencing	47
	2.16. Plasmid vectors employed for the present study	49
	2.17. Restriction digestion and ligation of DNA	50
	2.18. Transformation of <i>E. coli</i> with plasmid DNA	50
	2.19. Expression of the recombinant proteins in <i>E. coli</i>	51
	2.20. Purification of recombinant protein using IMAC	52
	2.21. SDS- PAGE gel electrophoresis	55
	2.22. Cyanogen bromide digestion of protein	56
	2.23. Western Blotting	57
CHAPTER 3	RESULTS AND DISCUSSION	
	3.1 Diagnosis of extra pulmonary tuberculosis by indigenous PCR	58
	3.1.2 Tuberculous lymphadenitis	61
	3.1.3 Tubercular pleuritis	70
	3.1.4 Tuberculous meningitis	76
	3.2.1 Cloning, expression and characterization of <i>oxyR</i> protein of <i>M. tuberculosis</i>	83
	3.2.2 Cloning of mycobacterial <i>oxyR</i> gene in T7 expression system	84
	3.2.3 Profile scan analysis of deduced amino acid sequence and multiple alignment of pSNOXYR protein	91
	3.2.4 Expression and characterization of pSNOXYR protein	94
	3.2.5 SDS-PAGE, Western blot analysis of the recombinant pSNOXYR protein and CnBr digested peptide	98
CHAPTER 4	SUMMARY AND CONCLUSION	104
	REFERENCES	
	LIST OF PUBLICATIONS	

CONTENTS OF TABLES & FIGURES

TABLES		PAGE NO.
Table 2.1	Primers used in the amplification of <i>M. tuberculosis</i> DNA	45
Table 3.1	Comparison of final diagnosis from bacteriological examination, histopathology and PCR	65
Table 3.2	Comparative evaluation of PCR with conventional methods	67
Table 3.3	Results of Smear, Culture, ADA and PCR in samples of pleural fluid	72
Table 3.4	Agreement between clinical diagnosis of tuberculosis meningitis and PCR results	79
Table 3.5	Agreement between IS6110 and TRC ₄ PCR results	81
Table 3.6	The peptide masses from purified pSNOXYR protein treated with CnBr	101
FIGURES		
Fig.1.1	Chemical structure of DNA and PNA	
Fig.3.1	PCR amplification of clinical samples using TRC ₄ and IS 6110 primers	63
Fig.3.2	Screening of recombinant bacterial <i>oxyR</i> transformants by PCR	86
Fig.3.3	Restriction analysis of recombinant plasmid pSNOXYR	87
Fig.3.4	Nucleotide and deduced amino acid sequence of pSNOXYR insert in pRSETB	88
Fig.3.5	Phylogenetic analysis of <i>oxyR</i> gene from H37RV of <i>Mycobacterium tuberculosis</i>	89
Fig.3.6	Profile Scan Analysis of pSNOXYR protein	90
Fig.3.7	Amino acid sequence alignment of pSNOXYR with the mycobacterial <i>oxyR</i> , <i>E.coli</i> and <i>S.typhimurium</i>	93
Fig.3.8	Expression kinetics of recombinant pSNOXYR protein	95
Fig.3.9	SDS-PAGE analysis of recombinant pSNOXYR protein	96
Fig.3.10	Western blot analysis of recombinant pSNOXYR protein with Anti-His antibodies.	97
Fig.3.11	Secondary structure prediction of pSNOXYR protein	98
Fig.3.12	Immunoblot analysis of <i>oxyR</i> protein with normal and patient sera	100
Fig.3.13	Analysis of pSNOXYR protein treated with cyanogen bromide	102
Fig.3.14	Western blot analysis of CnBr – digested pSNOXYR protein probed with <i>M.tuberculosis</i> infected and uninfected sera	103
