ACKNOWLEDGEMENT

I am very much obliged to Dr. T. Meenambal, Dr. T. Kannadasan, and Dr. P.D. Arumairaj, who constitute the Doctoral Committee, for their continued association and encouragement during the entire period of research.

I am very much grateful to my Supervisor Dr. T. Meenambal, whose support and confidence have helped me in broadening the scope of research. My special thanks are also due to Dr. T. Meiara and Dr. M.L. Valarmathi of Government College of Technology, Coimbatore for critical and constructive suggestions.

I am greatly indebted to Dr. V. Kumar, and Dr. S. Santhana Bosu, Professors of Tamil Nadu Agricultural University for their suggestions. I am also thankful to the Agricultural Engineering Department of Government of Tamil Nadu, for according permission to study and to make use of the hydrologic data. My special thanks are due to Messrs. V. Sivaprakasam, K. Tamilselvan, M. Khader Mohideen, M. Velmurugan, M. Kumaravel and M.A.E. Benhur for their assistance during different stages of research.

I owe a debt of gratitude to my wife Mrs. S. Suja, son Mohan Nitish and daughter Purna Akshaya, for their cooperation, sacrifice, patience and tolerance, without which this would not have become a reality.

I reverently submit myself before The Almighty, for blessing me with the commitment and confidence.

RANJIT KUMAR M
